Azzaro

Design Rolf Fransson

Azzaro is a functional high quality unit with a classic design. Azzaro is perfect in any room due to its wide range of sizes and variations.

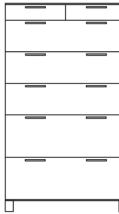

The fronts are available in white lacquer or frosted glass. As an alternative to the traditional door you have the option of flip-front doors, and all shelves are of course moveable. The legs and handles come in aluminum or white lacquer and instead of legs a grey plinth is optional. The plinth reduces the height by 5 cm. The cabinet comes fully assembled.
