# Window

Design Jonas Forsman

Window är en tidningsdisplay som fungerar som ljudabsorbent eller en ljudabsorbent som fungerar som tidningsdisplay.

Window is a magazine display that works as a sound absorber or a sound absorber that works as a magazine display.

Formpressad filt utgör grunden i produkten. Materialet är återvinningsbart, ljudabsorberande, lätt och slitstarkt.

Molded felt is the basic material of Window. The material is recyclable, sound absorbent, lightweight and durable.

Produkten monteras på vägg alternativt stående på golv.

Window is both available as a stand and as a wall module unit.

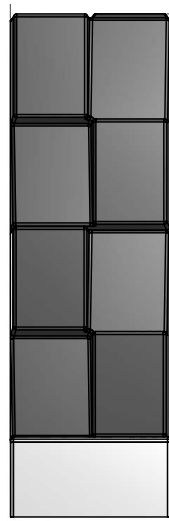

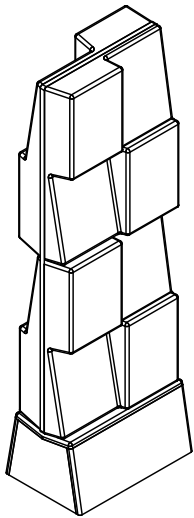

Stommen består av vit- eller svartlackerad MDF och är försedd med ställfötter.

The stand consists of white or black lacquered MDF and is fitted with adjustable feet.
