### Description

The bridge sink mixer tap is a robust, neat and attractive tap which is ideally suited for applications where a high degree of hygiene is required such as medical and clinical installations.

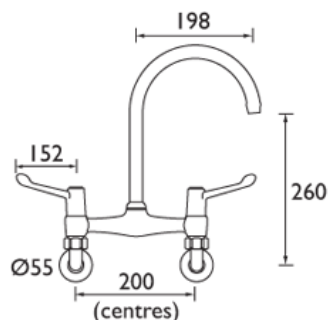

### Construction

The bridge sink mixer tap is manufactured from brass and has a high polish chrome finish. The quarter turn levers operate ceramic discs for rapid on/off flow. The levers are designed for ease of use with operation by either wrist or elbow. Supplied with 12 mm (1/2 in) BSP male inlet connections.

### Options

Deck – mounted version – see model 6766

### Dimensions

Tail pipe measures 85mm from centre line of down pipe (elbow) to threaded end of pipe

### Pressures

Minimum Working Pressure: 0.2 BAR  
Maximum Working Pressure: 7.0 BAR

### Order Code

**6767 WBMT**
