

addastone

Surface Protector

Addastone Surface Protector is an advanced, heavy duty surface protection designed to treat and protect surfaces from liquids including oil, diesel, coffee and general water ingress. The treatment eliminates the harmful effects of moisture and possible staining while also preventing frost damage.

addagrip

“Addastone Surface Protector, one application will protect porous aggregates for up to 10 years”

Easy to use

- Non toxic
- UV resistant
- Silicone free
- Environmentally friendly
- Advanced water based technology
- Non flammable

One application will protect Addastone surfaces typically between 2 -10 years depending on usage.

Other benefits are as follows:

- Chewing gum does not adhere
- Helps stop moss, lichen and algae forming
- Protects against fungal growth
- Transparent
- Keeps surfaces looking natural

Addastone Surface protector can be used on Addastone resin bonded surfaces, stonework, patios, block paving, paving slabs, pedestrian areas, car parks, garage floors etc. In fact, almost any untreated masonry, aggregate or cementitious surface.
