

## LED LIGHT BOX MF19 (MAGNET)

DATA SHEET

**LED Light Box MF19** is sleek with a non-obtrusive flush-faced frame for displaying printed graphics. It is especially popular for backlighting high quality Duratrans photographic images.

LED Light Box MF19 is a sleek flush-faced frame for displaying printed graphics. It is very popular for backlighting high quality Duratrans photographic images.

The light box is made up of two parts. The rear part provides very evenly lit backlighting and is mounted to a wall or other supporting structure. The front part is an acrylic cover plate to which the printed graphic is fixed with magnetic strips. This

graphic assembly is clipped on to the rear part with another set of strong magnets.

The total thickness of this LED Light Box is only 19mm. It is the slimmest light box with a 'lift-off' frame available on the market.

The size, frame colour and border can be customised. A waterproof and lockable version is available for use outdoors.
