

\_AHREND  
FOUR\_TWO  
2 LEGS

Project: Bronckhorst town hall  
Architect: Atelier PRO

**Functional design to meet all needs**

Ahrend Four\_Two tables and desks make up one programme\* to fit all situations. For flexible use as workstations with or without monitors, sit-to-stand tables, conference tables, cluster workstations, duo-desks or bench desks. Clean lines, sturdy and stable. With C, I or A legs, or slab ends.

Design: Wijtse Rodenburg

\*There is a separate brochure showing the Ahrend Four\_Two 4 leg version.

**People**

- › Furniture that motivates you and makes you feel good
- › Flexible working – wherever, whenever, however or with whoever you do it

**Planet**

- › Efficient use of space reduces CO2 emissions
- › Longer product life due to the use of high quality materials
- › 100% recyclable: manufacturing with used parts creates a continuous recycling chain
- › Next Life: the Ahrend Four\_Two modular system is ideal for Re\_fit, revitalising a workspace with functional design improvements

**Profit**

- › Saves space
- › Reduces energy consumption
- › Low installation costs

## Ahrend Four\_Two 2 leg version

Ahrend Four\_Two gives new meaning to words like flexible and functional. There is a Four\_Two solution for all needs and every situation. Always imaginative, effective, and taking up less space. With Ahrend Four\_Two you create a made to measure environment in which job satisfaction is almost guaranteed!

Project: DLA Piper  
Architect: Hofman Dujardin

AHREND  
FOUR\_TWO:  
A BALANCE  
BETWEEN PRICE  
AND QUALITY

## Efficiency can look good

Ahrend Four\_Two allows you to make good use of those costly square metres. Increasing efficiency starts with the purchase price. Whether you want desks with open or closed sides (slab ends), in single or duo versions, Ahrend Four\_Two proves that high quality can go with a reasonable price.

THE BASICS FOR  
WORKING ALONE  
OR TOGETHER

## Ideal interaction

From working on your own to working together. From concentrating to consulting colleagues. The Ahrend Four\_Two duo-desk, with its individually adjustable desk tops and plenty of leg room, ensures ideal interaction when you want it. There should be no more misunderstandings and work processes can be streamlined.

WORK AND  
DISCUSSION AT  
EVERY LEVEL

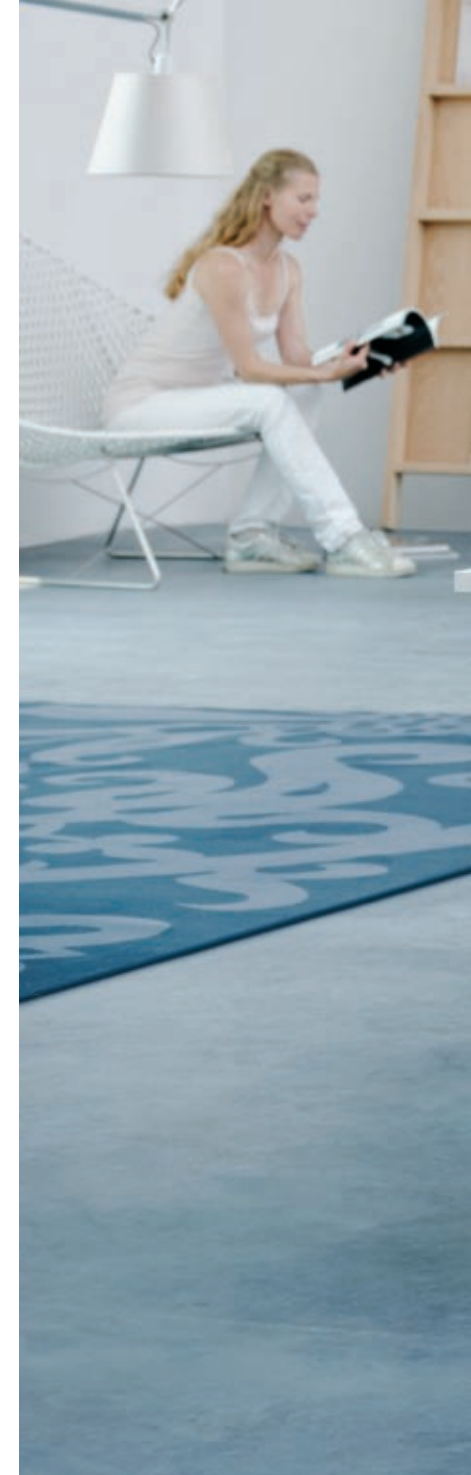

## What goes up must come down

From sitting to standing height in no time. The Ahrend Four\_Two sit-to-stand table is made to meet those fast changing individual requirements. It is easy to electrically adjust between sitting and standing positions. This sit-to-stand table provides flexibility in the working environment – either individually or in a group.

## Surprisingly versatile, surprisingly inexpensive

Aesthetic, timeless and well coordinated design. A flexible, functional and sustainable system. Completely adjustable and fully recyclable. The Ahrend Four\_Two range offers superb flexibility but at a surprisingly low cost. And this excellent price to quality ratio applies to whichever model you choose: individual workstation, duo workstation, cluster workstation, conference table, sit-to-stand table or bench desk.

STANDARD RANGE  
BUT TOP QUALITY

Simply turn the knob at the top of the A-leg to adjust to the height you need.

Project: INHolland University of Applied  
Sciences, Delft  
Architect: Rietveld architects

1. Fixed height A-leg
2. Adjustable height A-leg
3. Fixed height C-leg
4. Adjustable or variable height C-leg
5. Fixed height I-leg
6. Adjustable or variable height I-leg
7. Leg with slab end (steel) for Ciranol or Melamine top
8. Leg with slab end (steel) for Melaboard top
9. Leg with slab end (Melaboard) for Melaboard top
10. Melaboard top 50 mm
11. Ciranol top 12 mm
12. Melamine top 22 mm

## Every detail guaranteed

Ahrend Four\_Two is available in all Ahrend colours. You can choose from Ciranol, Melamine or Melaboard worktops. The working height can be adjusted to suit your needs. In summary, you can be assured that everything will be exactly as you want it to be.

## Perfect match

It goes without saying that the Ahrend Four\_Two range works perfectly with fixed and mobile pedestals, tambour and sliding door cabinets, acoustic panels or screens and room dividers in the Ahrend programme. Accessories such as CPU holders, organisation rails and flip-top cabletrays are also easily integrated.

Semi-transparent plastic or fabric panels for combining with worktop or organisation rail

Variable height – easy to adjust manually or electrically

Ahrend Four\_Two has a myriad of options for cable management, from a simple cabletray or box to an extensive cabling system

The Four\_Two CPU holder is height and width adjustable

MORE THAN  
COMPLIES  
WITH THE  
APPLICABLE  
ERGONOMIC  
STANDARDS
