- › Comes with complete range of accessories for electrification and screening
- › Easy to assemble. Assembled or disassembled within two minutes
- › Fully recyclable

_AHREND FOUR_TWO 2

Designer **Wijtse Rodenburg**

“Ahrend Four_Two is furniture range consisting of a four-legged model, a two-legged model and a model with side pieces. The two-legged version is based on a no-nonsense design, with form following the strictly functional. The result is an open and stable character for all models – the symmetrical I-leg, the asymmetrical C-leg and the duo version. The balanced design is at its strongest with medium-thick tabletops that appear to float freely above the legs, as the legs do not support the tabletop.”

RANGE

_AHREND FOUR_TWO 2
