

## Portals K185

### Applications:

The K185 welded aluminium door meets the user's 3 main needs: remote controlled opening and closing, sturdy construction and easy maintenance.

The Kawneer welded aluminium door is sold as a ready-to-fit product with the same weld quality criteria as those used in the manufacture of the K190 welded door.

Customers have the choice of 2 lines of doors, providing 2 distinct looks:

	STATUS	BACCHUS
<b>Folding door 1 leaf</b>	X	X
<b>Folding door 2 leaves</b>	X	X
<b>Sliding door</b>	X	

**STATUS**, with opening frame assembled in mitre cut, which makes it possible to produce standard, folding or sliding doors.

**BACCHUS**, with opening frame assembled in straight cut, which makes it possible to produce various kinds of folding doors:

- Standard
- Low slope
- High slope
- Curved
- Kepi

Optional automated opening

### Market:

- Residential
- Non-residential
- New
- Refurbishing

**Design:**

Available in all colours

Meticulous finishing: finishing hoods make welds invisible

**Performance:**

The Kawneer aluminium door benefits from high reliability thanks to its construction entirely in aluminium.

Reinforced protection

Made to measure door: large sizes possible
