

DDA Clamp Handrailing System

DDA Clamp – Handrailing System

A complete handrail system that has been specifically designed in compliance with the Disability Discrimination Act (DDA) and the building Regulations Part M:2004

Product and Finish Standards

All fittings are hot dipped galvanised to BS EN ISO 1461 and tubing is galvanised to BS1387 providing long lasting resistance to corrosion. Powder coat finishes to standard RAL colours are available on request.

Suitable For:

All disabled access areas

720 – 90° Bend

Manufactured from galvanised tube to form 90° corners with minimal parts.

721 – 180° Return

Manufactured from galvanised tube to allow the handrail to return 180° to the mid-rail.

723 – End Term

Designed to terminate the handrail safely and prevent clothing being caught on the end.

725 – 90° Elbow

This fitting can be used with 731 to terminate the handrailing to a wall.

731 – Wall Flange

Used with fitting 725 to terminate the handrailing system to a wall.

DDA Clamp Handrailing System

745 – Wall Bracket

This fitting is used to attach the handrail system to the wall at any angle.

746 – Rivet Wall Bracket

To attach the handrail to a wall at any angle. The bracket is riveted to the handrailing. Rivets are supplied separately at extra cost.

747 – Internal Swivel

To attach handrail to an upright at any angle when used in conjunction with QuickClamp 101 or 125 for a single rail or 104 for a double rail.

748 – Rivet Internal Swivel

To attach handrail to an upright at any angle when used in conjunction with QuickClamp 101 or 125 for a single rail or 104 for a double rail. Rivets are supplied separately at extra cost.

750 – Male Lug

Designed to attach a freestanding handrail to an upright at any angle when used in conjunction with QuickClamp 173

751 – Rivet Male Lug

Designed to attach a freestanding handrail to an upright at any angle when used in conjunction with QuickClamp 173. Rivets, nuts and bolts are supplied separately at extra cost.

797 – O-Ring

An optional extra to be fitted to each end of the expanding DDA fittings, to attain the best finish.

701 – Short Tee Reducing

Used with fitting 725 to attach the handrail to an upright at any angle.
