- **When cleaning the stainless steel toilet brush holder**, check for dirt and grease and wipe clean as directed in the 'Care of finishes' section.
- The brush and liner need to be cleaned by removing from the holder (Fig.18).

### weekly checks

- **If the toilet brush holder has become loose** check that the fixings are tight and that there is no movement on the bracket or fixings to the wall. If the items are loose, please tighten the relevant fixings (Fig.15 & 16).
- **If the toilet brush becomes loose from the handle**, tighten the brush by rotating clockwise (Fig.17).

### monthly checks

#### Satin Stainless Steel

Wipe clean with a medium strength detergent or white spirit using a soft cloth or sponge. Rinse and dry with a dry soft cloth. In the event of dirt having accumulated through neglect, application of aerosol lubricant prior to standard cleaning is recommended. A harsh brush should never be used.

**Finish prefixes: SS**

#### Polished Stainless Steel

Wipe clean with a medium strength detergent or white spirit using a soft cloth or sponge. Rinse and dry with a dry soft cloth. In the event of dirt having accumulated through neglect, application of aerosol lubricant prior to standard cleaning is recommended. A harsh brush should never be used.

**Finish prefixes: PS**
