

Clubbers At London Nightspot Dance All Night Thanks To Altro Flooring

AltroScreed Quartz & AltroCast

Clubbers at the O2 Dome's newest nightclub are dancing the night away on Altro's resin flooring, specially designed to offer an easy-clean solution and cope with high impact footfall.

The attractive AltroScreed Quartz installed at the Urban Inc nightspot is extremely easy to clean and has been a real boost to staff at the club when they close the doors at 4am.

As well as the dance floor, the interior surfaces specialist's products have also been used in the toilets where AltroCast and again AltroScreed Quartz have been installed. The attractive and durable products complement the retro décor fitted in the washrooms.

AltroScreed Quartz is a hard wearing floor suitable for areas where safety features, such as slip resistance are vital. Resistant to a wide range of chemicals, including many of those found in alcohol, AltroScreed Quartz is perfect for a bar or night club environment.

"We knew Altro's resin flooring would eradicate the need for lengthy cleaning so it has been a real godsend."

"It looks very impressive when the lighting is in full swing as it reflects the beams and brings the club to life."

Sylvain Solignac, Club manager

"This installation had the real wow factor and has brought everything together."

"AltroScreed Quartz is the perfect flooring solution for this brief as it is easy to lay in large areas, can cope with high footfall and also looks attractive"

Grant Machen, of contractor Resintek
