

Ducati showroom - Altro Mondopave Slate™

"The flooring looks really smart and slick, giving the showroom a real edge which makes it stand out from others of its kind. The quality of the floor really is second to none and our customers have already commented on how great it looks."

Tom Barnley, Store Owner

Bedford Modern

rubber flooring / soft underfoot

Strong, stylish, versatile, with a difference you can feel underfoot. Rubber gives you a funky, tactile material with a world of design options and a host of practical benefits. If you're after a floor that can stand up to gruelling traffic - which is more durable

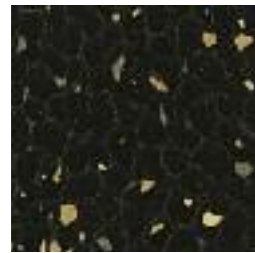

and performs in high traffic walkways - rubber could be just the surface for you.

- Excellent durability
- Excellent acoustic absorbency, ideal for public areas
- Underfoot resilience and comfort

For more information on life cycle costs, see page 138.
