Wall Tie –ST1

By Ancon Building Products

Detailed description

Ancon ST1 Type 1 wall ties are suitable for cavities from 50 to 175 mm and can be used for all types of buildings, of any height, and in any location within the British Isles. The ties have a series of holes to provide water drips, allowing the ties to be used in both insulated and open cavities.

The ST1 has a measured dynamic stiffness of <math><113 \text{ MN/ m}^3</math>, meeting the performance requirements of Approved Document E for use in external masonry walls.

Product guidance - As Standard

Material:

Austenitic stainless steel.

Product specification
