Wall Tie – HRT4

By Ancon Building Products

Detailed description

Staifix HRT4 Type 4 wall ties are light duty housing ties, suitable for cavities from 50 to 150 mm and can be used for domestic housing up to 10 metres in height.

The Staifix HRT4 has a measured dynamic stiffness of $<4.8 \text{ MN/m}^3$, at a cavity of 50-100 mm and 125-150 mm and is therefore suitable for internal separating (party) walls. The HRT4 can be used with all approved robust details for cavity masonry separating walls, both traditional and thin joint blockwork. The ties carry CE marking, BBA approval and meet the Technical Requirements of the NHBC.

Product guidance - As Standard

Material:

Austenitic stainless steel.

Product specification

Manufacturer

- Name:	Ancon Building Products
- Web:	www.ancon.co.uk
