Welcome to our 2015 brochure filled with lots of exciting ideas created to inspire you and make your dream bathroom become a reality.

With nearly 30 years' experience in the bathroom industry, designing and manufacturing luxury shower enclosures and showering products, the Aqata brand is synonymous with quality, innovation and superb design.

As a family owned British company we strive for excellence in our product ranges which are sold through our network of approved specialist bathroom retailers. We also supply luxury house builders and developers, prestigious hotels, leisure complexes and luxury boat builders.

Designed and hand built by our experienced craftsmen in the UK, every Aqata shower enclosure combines quality components and superb coherent design. All of our products are backed by a lifetime guarantee you can trust and everything we design has you in mind.

Our extensive product portfolio enables us to offer bathroom solutions to suit all types, shapes and sizes, from contemporary to traditional with an array of unique features which set Aqata apart.

Together with three superb ranges of shower enclosures, Spectra, Minimalist and Exclusive Solutions and a comprehensive bespoke service across all three ranges, we also offer a wide selection of standard and dedicated shower trays, an in-house glass etching facility and award winning ClearShield with ECO-GLASS™ as standard on all products.

So much more than a shower enclosure.

*Beauty is in the eye of the beholder
and the hands of our craftsman*

*Turning problem
spaces into design
solutions*

From March 2015, all Aqata shower enclosures and screens will have the benefit of ClearShield Eco Glass™ protection as standard

ClearShield ECO-GLASS™ protection for glass provides a surface that:

- Resists staining from hard water deposits
- Saves time and effort and is easier to clean
- Keeps your shower looking like new for longer
- Eco friendly for a more hygienic environment
- Does not support the growth of bacteria

For more information see page 170

3d bathroom design solution at your fingertips

Aqata & Virtual Worlds

Virtual Worlds Interactive 3D design solutions give our retailers a library of Aqata products at a mouse click, to create a 3D representation of your dream bathroom.

Videos

Why not take a look at one of our three videos
 Day in Life – Behind the scenes look at the Aqata team.
 Training Video – How to install a SP350 shower enclosure.
 Corporate Video – Introduction to Aqata’s products and service.

Showroom

Come and visit Aqata’s stunning showroom with over 30 displays at our Head Office in Hinckley, Leicestershire, the ideal place to see our shower enclosure collections. Please call 01455 896500 to arrange by appointment only.

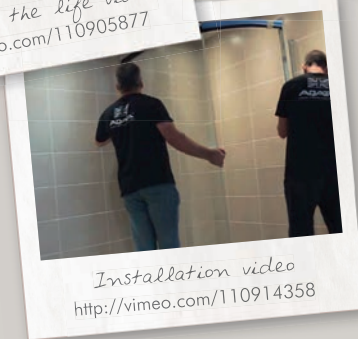

We will be delighted to guide you around our showroom and assist with any queries you may have. Although we will not be able to facilitate an on-site order we will be able to pass you onto your nearest Aqata dealer who will be able to assist in the purchase of your product.

Choosing your perfect product

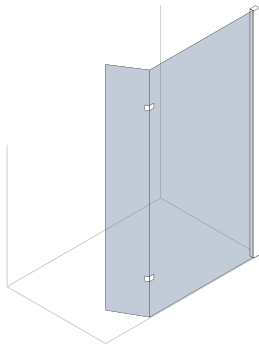

The Aqata product portfolio consists of three shower enclosure ranges;

Spectra - a stunning collection of contemporary frameless shower enclosures.

Minimalist - clean lines and minimal framing for contemporary living spaces.

Exclusive Solutions - a versatile range of shower enclosures offering practical and innovative design solutions.

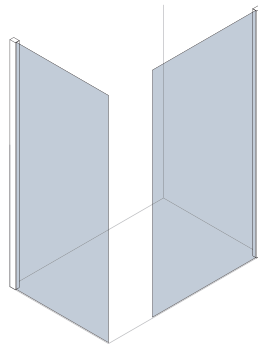

Each of the three ranges are available in a variety of styles, giving you the choice to find the perfect size and style that will fit within your bathroom. As you can see there is something to suit everyone...

WETROOM PANELS & SCREENS

A roomy walk in with a practical hinged panel which can be positioned to deflect overspray.

Spectra - SP400, SP440, SP445, SP446, SP448, SP450.

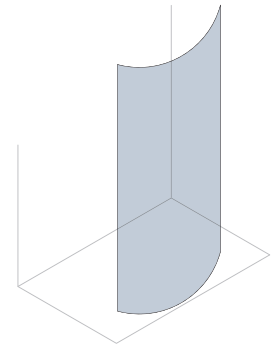

WALK IN

Straight shower screens create a simple yet effective contemporary solution for modern bathrooms and are ideal for wet rooms.

Spectra - SP405, SP410, SP415, SP420, SP425, SP430, SP435, SP446C, SP447, SP447TS.

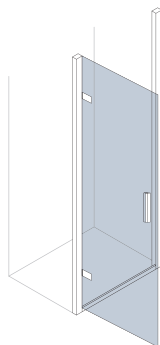

Minimalist - M205.

CURVED SCREENS

Curved screens add style and practicality, the perfect contemporary combination.

Spectra - SP390, SP395.

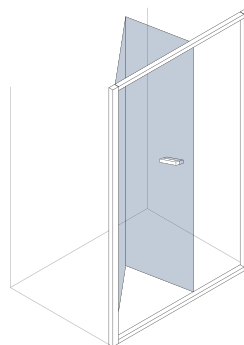

HINGED

Hinged doors in 8mm glass provide the widest opening for a specific door size. These outward opening doors can hinge from the wall profile or from an inline or side panel.

Spectra - SP455, SP456, SP457, SP458, SP459, SP460, SP470, SP475.

Minimalist - M400, M405, M415, M420.

Exclusive Solutions - ES200, ES205, ES210, ES215, ES220, ES225, ES230, ES235.

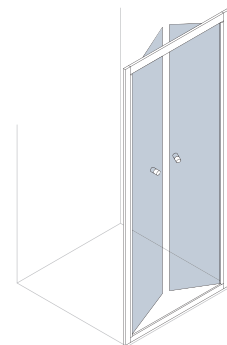

INWARD OPENING BI FOLD DOORS

Inward opening bi-folding doors are perfect for small spaces. Ideal for a recess or corner leaving floor space free for easy bathroom planning.

Spectra - SP480, SP481.

Exclusive Solutions - ES260, ES265.

INWARD OPENING DOUBLE DOORS

Inward opening double doors provide easy access and are ideal for recess applications.

Spectra - SP462

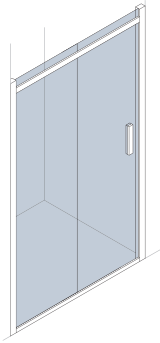

SPECTRA

MINIMALIST

EXCLUSIVE SOLUTIONS

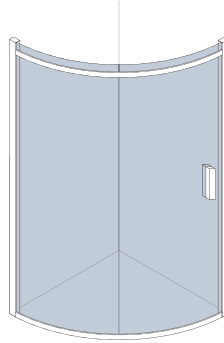

SLIDING

Spectra - SP300, SP305, SP310.

Exclusive Solutions - ES300, ES305, ES310, ES315

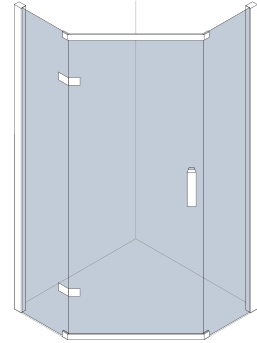

QUADRANTS

A space saving curved corner option suitable for most bathrooms. Available in a selection of door types and sizes.

Spectra - SP350.

Minimalist - M460, M600.

Exclusive Solutions - ES350, ES360, ES370, ES375, ES390.

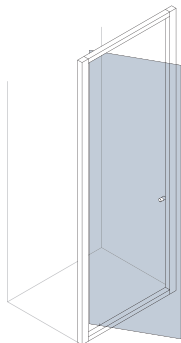

QUINTETS

A space saving corner option with a hinged door and side panels.

Spectra - SP500.

Minimalist - M500.

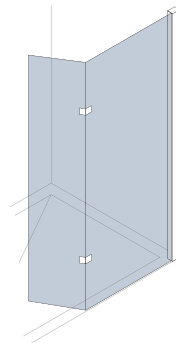

Exclusive Solutions - ES500.

PIVOT

Outward opening 8mm toughened glass door pivots at the top and bottom. Provides easy access and a shorter opening circle to optimise bathroom space.

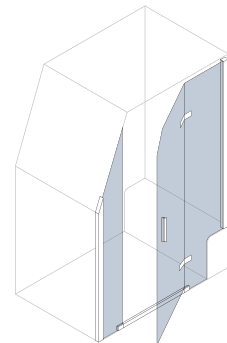

Exclusive Solutions - ES240, ES245.

BATH SCREENS

A stylish solution for over bath showering Inward folding or outward opening options left hand or right hand available.

Spectra - SP485, SP490, SP491, SP493, SP495.

MADE 2 MEASURE

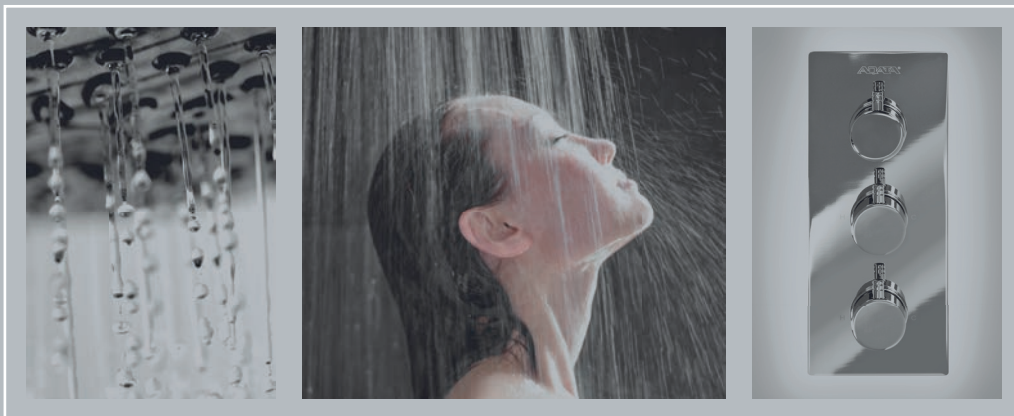

Special shapes and sizes, wetroom floor to ceiling panels, steam shower enclosures, notched or angled panels. Made to measure to create your perfect shower enclosure.

For Made 2 Measure options see pages 142 to 149

Frameless shower enclosures that transform your bathroom with a contemporary elegance

The Spectra range of contemporary frameless shower enclosures and shower screens includes straight and curved glass, hinged panels, spacious walk ins, bi fold, sliding and hinged doors.

Spectra has built in wall adjustment for out of true walls, and is created from the finest materials. The 8mm thick toughened glass has polished edges, whilst the hinges, brackets and substantial handles have a beautiful polished chrome finish. All Spectra sliding doors have a smooth gliding action, with central clear seals and discreet magnetic closing. All Spectra bi-fold, quintet and sliding doors are designed to cope with power showers and body jets. The type of steady bars may vary depending on your enclosure dimensions and may differ from the images illustrated in this brochure.

The Spectra range is suitable for tray or wetroom applications and Made 2 Measure options are also available.

The Spectra SP300 Sliding Door Recess Option is made from 8mm toughened glass, at 2000mm in height it creates the perfect recess enclosure for any home. The single sliding door glides smoothly and effortlessly, and closes securely onto discreet magnetic door seals. The stainless steel and polished chrome finish profiles with wall adjustment and concealed fixings with central seals keep shower spray at bay whilst maintaining the frameless aesthetic.

Screen folds outwards for easy access

SP485 outward opening bath screen

SPECTRA

SP490 & SP491

Choose SP490 for Inward opening or SP491 for Outward opening. Both bath screens provide the perfect solution for over the bath showering. Each screen is made from stunning 8mm toughened glass with polished chrome finish hinges and profiles. The screen folds through 180 degrees providing an effective water barrier and deflector. The 1500mm high screen is 900mm wide when fully extended and 500mm when folded flat.

*Beautiful range encompassing curved profiles
and pristine glass*

The Minimalist Collection has clean lines with minimal framing and was created for today's contemporary living spaces.

Stunning glass screens, walk ins and a wide selection of shower enclosures are available with either ceiling fixing or wall mounted steady bars.

The Minimalist range also features the unique Minimax® roll and click system which was developed by Aqata to facilitate easy installation of larger shower screens and enclosures, joining glass to glass in situ with the minimum of time and effort.

The Minimalist range is suitable for tray or wetroom applications and Made 2 Measure options are also available.

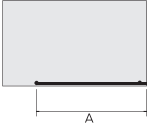

MINIMALIST

M200

The Minimalist M200 Shower Screen provides a stylish addition without detracting from the minimal wet room look, helping to keep overspray at bay. Beautiful toughened glass with a height of 1950mm with a polished chrome finish adds a contemporary clean look to any bathroom. The curved profile has built in wall adjustment and concealed fixings the enclosure can be secured using either a steady bar or with a ceiling fixing.

A classic aesthetic that delivers true luxury with a build quality to stand the test of time

Using only the finest quality materials, this versatile collection is suitable for power showers, body jets and steam.

Precision engineered to provide a smooth effortless door opening action. Watertight seals and concealed fixings with built in wall adjustment provide a luxury seamless finish. Stunning straight and curved glass, quadrant, quintet, sliding, hinged, bow top, pivot, and bi-fold doors, turning problem spaces into innovative design solutions.

The Exclusive Solutions range is suitable for tray or wetroom applications and Made 2 Measure options are also available.

EXCLUSIVE SOLUTIONS

ES200

The Exclusive Solutions ES200 Hinged Door Recess Option has an enclosure height of 1880mm and is the perfect choice for a recess option. The 8mm toughened clear glass has polished chrome surface mounted hinges to give maximum opening access. The frame incorporates full length closing seals eliminating the need for obtrusive mechanical catches. All profiles have built in wall adjustment with concealed fixings.

EXCLUSIVE SOLUTIONS

ES220 & ES225

The Exclusive Solutions ES220 Bow Top Door Recess Option and ES225 Bow Top Door and Side Panel Corner Option are traditionally elegant. The hinged door is constructed from 8mm thick toughened glass with polished edges and polished chrome surface mounted hinges which give maximum access. The enclosure height is 1880mm without the shower tray. This period style door features decorative glass corners with a double etched design detail with a matching towel rail.

Double etched glass

EXCLUSIVE SOLUTIONS

ES240 & ES245

The Exclusive Solutions ES240 pivot door in polished chrome finish with clear toughened glass and polished edges has simple lines and robust design incorporating the Aqata full length closing seals, eliminating the need for obtrusive mechanical catches. The ES245 Pivot Door Corner Option is shown below with an optional B7 Border Design etching. The enclosure height without the tray is 1880mm and the profiles allow for wall adjustment with concealed fixings.

EXCLUSIVE SOLUTIONS

ES260 & ES265

The Exclusive Solutions ES260 Bi-Fold Recess Option and ES265 Corner Option both have a height without the tray of 1880mm. The smooth sliding bi-fold doors are a simple and practical solution allowing different handing options, even when the space is limited. The classic design works well with a variety of bathroom styles. Both come with clear toughened glass and polished chrome finish profiles with built in wall adjustment with concealed fixings.

PERIOD
FEATURES

Create a classic or period style bathroom

From cutting edge contemporary to timeless classics Aqata has options to suit all styles and tastes. If period style is your preference Aqata has lots to choose from with a wide selection of glass etchings and profiles in gold or chrome.

If you are looking to create a classic or period bathroom sanctuary Aqata offers a decorative profile in gold finish for an additional 20% surcharge on the enclosure price. The gold decorative profile is available on most products in the Exclusive Solutions range (not available on ES360, ES370 and ES375 Elipse Quadrants).

Our in house etching service not only has a library of designs but we can also reproduce your own unique design, for more details see page 153.

For matching gold finish shower tray waste please see page 159.

Optional Towel rail available on selected products. Price £144.00 inc VAT.

Turning problem spaces into design solutions

The Aqata Made 2 Measure service enables you to choose from selected products within the Spectra, Minimalist and Exclusive Solutions ranges, tailored to fit your bathroom.

With Aqata's Made 2 Measure service even the most challenging of spaces can be transformed into a beautiful showering space.

MADE 2
MEASURE

Made 2 measure

Aqata have specialised in made to measure enclosures for nearly 30 years. Our dedicated technical team can provide all the expertise and knowledge required to help you create your dream showering space. Aqata made 2 measure enclosures are hand built at our centrally based factory in the UK by craftsmen with years of experience in the bathroom industry. Every Aqata enclosure is made to order so each customer can receive their perfect shower enclosure.

As individual as you are

Maximise the potential of your bathroom and create a showering area as individual as you are. Spectra, Minimalist and Exclusive Solutions ranges have an extensive selection of made 2 measure options available, opening up new possibilities for even the most challenging of spaces. Wet room floor to ceiling panels, special heights and widths, steam shower enclosures, notched panels, angled doors and angled panels. Just imagine your perfect space and our technical team will help with the rest. Made 2 Measure service is available to UK Mainland excludes Scotland.

Delivery

Delivery on any Made 2 Measure product is approximately 4 weeks.

MADE 2
MEASURE

Prices and quotations

For a quotation please ask your retailer to send a drawing of your requirements. All specials are priced on application and start from as little as 15% surcharge depending on configuration. Should we decide that a design is unsuitable, we will suggest an alternative solution where possible. Please note: Made 2 Measure is not available on curved glass.

Our quotations are based on your specification and accurate measurements (after installation of the shower tray and tiling). If required, contact our technical support team for advice on producing a template.

The three options of our Made 2 measure service

Option 1

Made to Measure

Working from your provided measurements to produce a made to measure enclosure.

Option 2

Measure & Template

An Aqata engineer will measure and template to produce a made to measure glass enclosure ready for installation

Option 3

Measure, Template and Install

An Aqata engineer will provide the complete service by measuring and templating, then once the enclosure has been manufactured will carry out the installation.

To find the perfect option for you, please contact your retailer for more information and prices

Made 2 measure

Aqata's made to measure shower screens and shower enclosures can turn problem spaces into design solutions. You can customise our standard ranges to design your ideal showering space.

Angled panels and doors

Angled hinged and pivot doors, inline panels and side screens are the perfect made 2 measure solution for making the best use of awkward spaces such as sloping ceilings in loft conversions.

Reduced height side panels

The Spectra SP475 made 2 measure (featured left) has a reduced height side screen and a notched inline panel fitted onto a bath. Reduced height side panels are available on Exclusive Solutions and Spectra ranges. All measurements must be taken after tiling and from the top of the shower tray.

Furniture panels

Furniture Panels are available within our Exclusive Solutions range to suit many different applications and overcome the need to construct stud walls. Aqata have developed a special H section profile which is positioned to correspond with the fitted furniture height. The furniture will butt up to the centre of this profile giving a perfect seal.

The top section is glass, and the lower section can be manufactured in a variety of standard options including white polypropylene and all over etched glass. Non standard options can also be manufactured.

Quintet stud walls

As part of our made 2 measure range Aqata offers special profiles for the Exclusive Solutions Quintet Hinged Door. This allows the construction of one or two stud walls next to or onto the shower tray.

For further details please contact our technical team on 01455 896500

B10
Modesty Panel

Aqata's In-House glass etching service offers a wide range of standard designs. We also specialise in creating unique etchings for clients who require their own logos or company branding, or for individuals who require their own personal design.

For a contemporary look modesty panels and all over etching can customise your enclosure. Classic period designs are available as pattern etched or background etched, with a choice of Complete, Centre or Border only designs. All designs are etched onto the outside of clear glass unless otherwise stated. Due to their size some designs are not suitable for all enclosures and etching onto curved glass is limited. (Contact sales office for more information).

Perfectly complementing the beautifully shaped Aqata shower enclosures and screens

Aqata shower trays are manufactured to the highest standard using a special process that produces a very rigid super strong acrylic capped tray, which is extremely durable and warm to the touch with a superlative smooth surface. Aqata shower trays are all quality guaranteed and come complete with a 90mm hi-flow waste as standard.

SHOWER TRAYS

Aqata have an extensive selection of standard shaped shower trays plus a wide range of dedicated trays. If used in conjunction with a steam generator, the steam outlet must be positioned a minimum of 300mm above the shower tray.

Dedicated trays

Aqata's dedicated trays have been specifically designed to integrate perfectly with Aqata's unique shaped enclosures. Dedicated tray prices and technical specifications are on the corresponding shower enclosure pages.

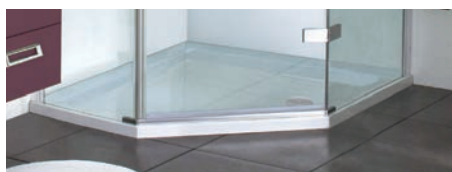

Standard Shower Trays

Aqata's standard low level shower trays complement the extensive range of enclosures. The 35mm low level shower trays have an optional 100mm high removable panel and adjustable legs which allows flexibility with a choice of installation, low level, flush or raised above the floor. Using the most up-to-date technology and a unique construction to produce a superb quality shower tray that is both rigid and durable, with a beautiful finish and striking contemporary design. Smooth to the touch and easy to clean, available in a wide range of sizes. For standard tray prices see page 158-159.

- Wide flat rim for improved seal
- 35mm low level
- Complete with hi-flow chrome finish waste
- Optional adjustable leg and panel pack available on all standard trays and selected dedicated models
- All 35mm high trays are a maximum 25 kilograms, one man lift

Hi-Flow Waste

Aqata's shower trays incorporate an integrated hi-flow waste system which has an easy access removable trap and polished chrome finish waste as standard. Polished gold finish waste is also available at an additional charge. The built in fall in every shower tray despatches water efficiently towards the waste which is tested to European Standard EN329 to an achieved flow rate of 24 litres per minute.

Linneal Designer Showers

The Linneal thermostatic showers are designed for safe luxurious showering combining performance, durability and sleek contemporary styling, a perfect addition to your Aqata shower enclosure.

Linneal showers are precision engineered using the highest quality materials and finished in beautiful polished chrome. Anti scale shower heads, handsets and body jets are incorporated for easy maintenance. The Linneal shower pole has a built in diverter enabling you to switch between the shower head and the handset and an adjustable riser with a flexible hose.

There are an assortment of products to choose from, select your showerhead, handset, body jets and control valve all to create a tailored solution perfect for you.

Wall mounted showerheads

Safe Family Showering

Aqata's twin and triple concealed Linneal shower valves are WRAS TMV2/TMV3 approved providing safe showering to protect your family, minimising the risk of accidental scalding.

The governments Water Regulations Advisory Scheme recommend the use of thermostatic mixing valves (TMVs) and our showers meet those standards, with pre-set temperatures maintained even if the water pressure drops. Our showers provide full thermal protection allowing hot water to be blended to a safe temperature and will shut down automatically within 1.5 seconds if the hot or cold water supplies fail.

Conforms with part G of the Building Regulations

Linneal thermostatic showers conform with part G of the building regulations which states that any bathroom refurbishment or new build should use a thermostatic mixing valve as standard practice.

TMV2 valves meet Government recommendations for the use of thermostatic mixing valves in showers for all housing and domestic use. Certified valves with TMV2 approval will significantly reduce the risks of accidental scalding in the home when delivering hot water through a thermostatic mixing valve.

Our TMV2 cartridge is powered by Valquest Ltd. VQ20 & VQ21 Approved by WRAS Cert. No BC254/0207 & BC947/1211

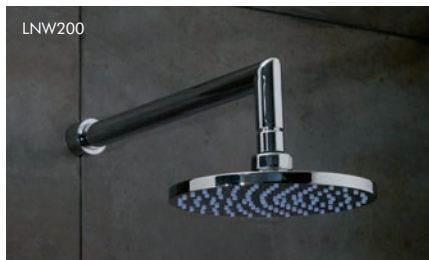

TMV3 valves meet Government Health and Safety requirements for use in schools hospitals, offices and public places significantly reducing the risks of accidental scalding when delivering hot water through a thermostatic mixing valve.

Our TMV3 cartridge is powered by Valquest Ltd. VQ20 & VQ21 Approved by WRAS Cert. No BC1119/1212

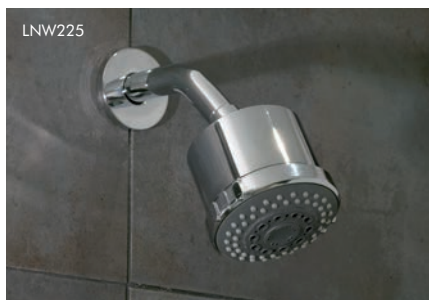

Appropriate products have been extensively tested by the WRc and are approved to comply with the water regulations advisory scheme.

Linneal Shower Technical Advice

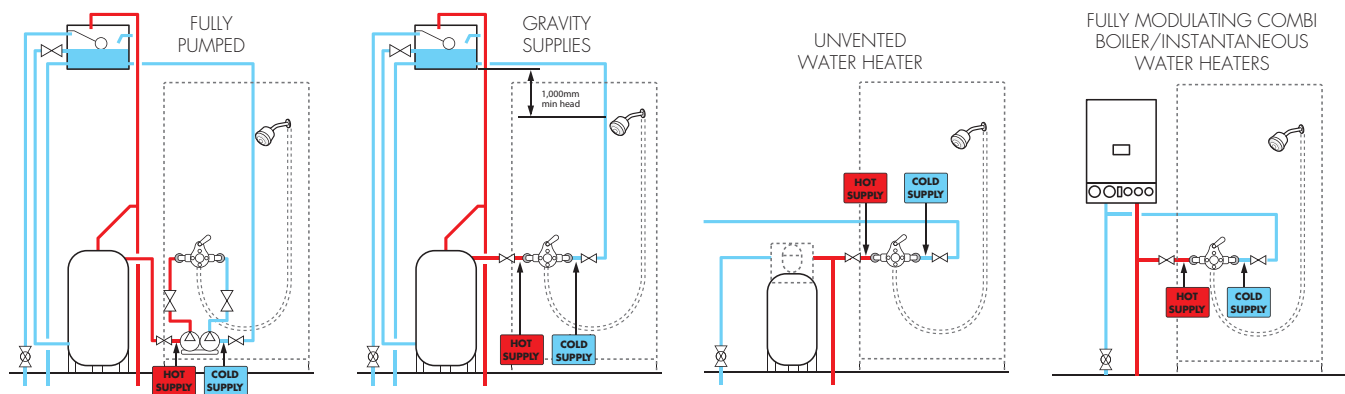

Aqata has chosen to work in conjunction with the industry experts to produce a superb thermostatic shower valve with patented design that is manufactured to exacting standards.

The unique cartridge design enters a new generation of thermostatic valve technology and is WRAS approved to TMV2/TMV3 recommended standards for anti scalding protection. Factored at 38°C to 44°C for safe showering temperatures our thermostatically controlled shower valves have no need for the red button system.

- Precise flow control
- Precise thermostatic control to +/- 1°C even when there is a change in water pressure
- To prevent scalding the valves have full thermal protection for either hot or cold water shut off. Automatic shutdown within 1.5 seconds if hot or cold water supplies fail
- The valve cartridge is highly resistant to limescale/calcium build up even in hard water areas
- Unique integral waterway construction with innovative reverse flow adaptability
- Ceramic disc cartridge on/off control
- Suitable for use with all systems, gravity fed, pumped, unvented high pressure or fully modulated combi boilers
- Complete brass body valve with front access shut off valves for easy maintenance
- Thermostatic concealed shower valve
- Polished chrome control knobs and valve plate
- The valve can deliver 8.8 litres per minute at 0.1 Bar Pressure and operate to a maximum pressure of 5 Bar. (see flow chart)
- To obtain the best performance from shower heads we recommend a pumped, unvented, or fully modulated combi boiler system
- Advice should be taken from your retailer or plumber to achieve your desired showering expectations

The TMV2/TMV3 valve is compatible with all types of plumbing systems

Identify your system, fully pumped, gravity fed, unvented high pressure or fully modulated combi boilers

Finishing TOUCHES *for your bathroom*

Create a feeling of luxury and a calming influence by incorporating plenty of storage.

Delicious fragrances enhance atmosphere

Beautiful body washes and scented soaps create a sensual atmosphere to enhance the luxury feel in your bathroom

“Once you have selected your perfect bathroom, you can enhance mood and atmosphere with a few simple finishing touches to really pamper yourself”

Invest in Egyptian cotton for ultimate comfort

Be greeted by fresh new Egyptian cotton towels as you exit your new Agata shower for the ultimate feeling of warmth and comfort.

Add a little traditional style with a contemporary twist

Maximise natural light to its full advantage and position bright task lighting above the shower and vanity areas combined with soft mood lighting in key areas. Use reflective surfaces such as glass shower enclosures and large mirrors to bounce light around the room.

Scented candles for a touch of ambience

Choose light or neutral colours and textures and a limited pallet especially in a small space. Natural stones, marble and glass with polished chrome fittings combined with soft bath linens will add an understated luxury to any bathroom.

Add a splash of colour with an orchid that will thrive on the light and humidity in your bathroom.

ClearShield ECO-GLASS™

Glass Protection

ClearShield ECO-GLASS™ is supplied as standard on all Aqata enclosures, doors and screens. This unique product is applied to the inside of the glass and works just like 'non-stick' cookware, acting as a protective barrier on the surface of the glass.

- Resists staining from hard water deposits
- Saves time and effort and is easier to clean
- Keeps your shower looking like new for longer
- Eco friendly for a more hygienic environment
- Does not support the growth of bacteria

Unprotected glass can quickly and easily suffer permanent bonding of limescale / mineral salts onto its surface causing staining and physical damage. Water spots become very difficult, if not impossible to remove despite regular cleaning. As a result, the appearance and hygienic environment of the shower are spoiled.

Water softeners can diminish the effectiveness of ClearShield. Cheaper brands of water softeners do not remove salt. Glass should be squeegeed down and dried with a soft micro cloth after every use.

The surface of award winning ClearShield ECO-GLASS™ is chemically non-reactive and 'non-stick'. The ClearShield protection bonds to the glass and as a multi stranded polymeric resin, it is stronger and more durable than silicon based easy clean systems. Limescale and other dirt will build up only half as fast, and will not bond to the glass. Cleaning is now a very simple task.

Durability guideline

ClearShield ECO-GLASS™ will last for up to 10 years if you follow the simple aftercare programme.*

**Warranty*

- You must register your product to activate your warranty
- The correct After-Care products must be purchased and used to maintain ClearShield ECO-GLASS™ warranty

(Please refer to your ClearShield ECO-GLASS™ warranty form)

Without ClearShield

With ClearShield

Aftercare for ClearShield ECO-GLASS™

Harsh and abrasive cleaning materials can be harmful to you and to the environment. Specialist After-Care for shower glass has been developed to gain the maximum performance from ClearShield ECO-GLASS™. It is a very effective cleaner and disinfectant with a special ClearShield enhancer and can be used on the glass, framework and shower tray. Using this unique after care product in a simple and regular manner, enhances the benefits of having ClearShield ECO-GLASS™ on your shower, keeping your enclosure looking like new for longer.

ClearShield ECO-GLASS™ 'Non-Stick' glass is used in a wide range of domestic, commercial, industrial and marine applications and does not degrade. It has received major awards and recognition because of its outstanding performance, even in the harshest environments.

Care and maintenance

Top tips

- Squeegee and remove any water on the glass, frame and fittings after each use
- Do not allow limescale to build up on the enclosure
- Use the ClearShield After-Care cleaner once a week to polish the glass and framework
- Do not leave neat cleaning products on the surfaces
- Do not use any "spray on and leave" cleaning products
- Ensure any cleaning products are non-abrasive and between pH 4 & 8
- To remove limescale a solution of 50:50 white vinegar and water can be used
- Ensure vinegar solution is rinsed thoroughly and polished off with a dry cloth

Shower trays

Clean after every use with warm soapy water or mild detergent and wipe dry with a soft cloth, never use gritty or abrasive cleaner. Limescale or fine scratches can be removed by the light use of T-Cut Original applied with a damp cloth and then polished off. Easy access waste trap should be removed and cleaned weekly, ensuring any debris is cleared.

Care programme

Aqata's Screens and Shower Enclosures are designed for a lifetime of luxury showering and with a little care and attention you can keep your enclosure looking like new. Aqata strongly recommend that the glass and the framework are wiped down after every use with a squeegee and dried with a soft cloth.

Code	Description	Ex VAT	Inc VAT
ACM010	Deluxe Chrome Squeegee with hook	£45.00	£54.00 (plus p&p)

Guarantee

Aqata bathroom products are manufactured to the highest standard. Our confidence in the quality and reliability of our products enables us to offer a lifetime guarantee* on all Aqata shower enclosures and a five year guarantee on Aqata Linneal showers and shower trays. This guarantee covers manufacturing or product faults and does not cover wear and tear or damage caused during fitting or misuse. Spare parts are chargeable after two years. Please refer to our guarantee for full details.

Please ensure you register your products to validate your guarantee, failure to do so will invalidate your guarantee. You can register online at www.aqata.co.uk or call 01455 896500.

Delivery Charge

Shower trays despatched without enclosure will be subject to £35.00 net carriage charge (plus VAT). Orders for miscellaneous products (excluding trays) under the value of £200 including VAT will be subject to a carriage charge. Please ask for details.

Continual Improvement

Our Company policy is one of continual improvement and Aqata reserve the right to amend designs, specifications and prices without prior notice. E&OE. Shower tray heights can vary due to manufacturing tolerances of ± 5 mm. The description chrome and gold when referring to Aqata shower enclosures applies to surface finishes only. All products are subject to availability.

Returns Policy

Because of the bespoke nature of Aqata products a re-stocking charge of 25% plus carriage charge will apply on all returned items. We will not re-stock any specials or etched glass orders, or product over 3 months old. Damaged goods will not be credited. Terms and conditions apply.

Usage

Watertightness is a key consideration when choosing your shower enclosure. If you require complete water retention especially when using power showers and body jets choose from our Exclusive Solutions range. Install your enclosure in a well ventilated area as steam and condensing vapour can result in mineral deposits/build up. Please note that with shower screens and walk in enclosures water spray may extend beyond the length of the glass panel, dependent upon the power of the shower and its position. Please ensure a suitable waterproof and sealed floor finish is used outside the showering area.

Some Exclusive Solutions and Spectra products have pre-assembled frames. Please consider the site access available and dimensions when ordering sliding door enclosures or large panels of glass. Please check the technical information on the relevant page when ordering products.
