

### **The AUTOPA Speed Ramp 50**

*The AUTOPA Speed Ramp 50 is a highly effective way to control traffic speeds. The high visibility combination of black and yellow with white reflectors ensure that the ramp is seen. Made from heavy duty recycled PVC these ramps are extremely durable. The Speed Ramp 50 is available in packs for roadway widths ranging from 2.0m - 6.0m, each pack includes the bolts necessary for fixing to concrete. Each component is also available separately.*

*The Speed Ramp 50 is 50mm high and is designed to slow traffic to approximately 10mph.*

*A 1.5m section of the Speed Ramp is shown for illustrative purposes.*

### **Product Range**

<b>Order Code</b>	<b>Description</b>	<b>Weight</b>
138109000	2.0m	28.4kg
138109002	2.5m	36.4kg
138109005	3.0m	44.4kg
138109007	3.5m	52.4kg
138109010	4.0m	60.4kg
138109012	4.5m	68.4kg
138109015	5.0m	76.4kg
138109017	5.5m	84.4kg
138109020	6.0m	92.4kg

### **Product details**

50mm (above ground).

420mm wide.

500mm long (each inner section), 210mm long (each shoulder section).

Heavy duty recycled PVC. Suitable for HGV's with pneumatic tyres up to 44 tonnes.

### **Installation & use**

All bolts, fixings and reflectors are included with the ramp segments (bolts provided are suitable for fixing to a concrete surface of at least 100mm thick).

Due to variable vehicle specifications some 'grounding' may occasionally occur.

In order to minimise 'grounding' ensure the area surrounding the ramps is flat and level with no nearby surface irregularities or gradient changes.

This product is guaranteed for 12 months (*if installed and used correctly*).
