

BLS 110V Low Level Convactor Heaters

- Providing comfort heat where only a 110V supply is available
- Low running costs ensured by integral thermostatic control
- Low profile design allows maximum use of wall space

Typical Applications

- Site Huts

BLS-110-1000T
110V robust convactor heater – ideal
for site huts

Features

- Robust steel construction with central baffle plate to promote convection currents
- Long life metal sheathed finned heating element
- Auto-reset over-temperature protection
- Built-in thermostat with external knob allowing easy adjustment of temperature set-point
