EMERGENCY CALL POINT

OPERATING INSTRUCTIONS

IN CASE OF EMERGENCY

- The Call Point is available if the System OK light is solid and not flashing.

- Press the 'CALL' button to initiate a call.

- The STATUS light will illuminate and a ring tone will sound.

- When the call is answered the Ring tone will stop and the Status Light will stay illuminated to show the call is in progress.

- Wait for the operator to finish speaking before replying.

- Speak clearly in the direction of the unit. Do not press or hold the 'CALL' button during a call.

- When the conversation finishes the STATUS light will go out and the SYSTEM OK light will illuminate.

- If you want to speak to the operator again press the 'CALL' button.
