- Automatic code reset after opening by means of the handle
- Anti-code detection with integrated security press plate
- Cylinder Dustcover available (optional)

▶ **Product Description**

Mechanical codes lock with aluminium housing and stainless steel mechanism. No batteries or electricity are required, which makes it very easy to equip any gate with access control. The 20 mm continuous adjustability of the bolts allows a perfect alignment of your locking mechanism. A massive stainless steel throw of 25 mm guarantees a secure locking.
