LINEAR – Shower Floor Gully

This 304 high quality stainless steel channel is designed for UK 'WOOD over JOIST' Floor Structures, as well as concrete floors. A narrow design, in 2x different lengths, its unique features include an adjustable installation frame & a choice of cover grates - Zero, Tile Insert and 3x coloured safety glass inserts. Good flow rates, great design features & connection options ensure LINEAR suits most showers installations E&OE

PRODUCT CHARACTERISTICS

- Small & discrete range of shower drains in 300mm & 400mm long sizes, with different grate options
- Made from high quality 304 Stainless Steel to offer reliability & superior resistance to chemical attack
- Outlet is in the centre, suitable for wooden floors; while the trap assembly can be rotated through 360 degrees & comes with UK regulations compliant 50mm trap
- Surrounding installation flange helps support the 18mm deep channel into common floor boards, & secures the waterproof sealing gasket that is supplied as standard
- Height adjustable S/Steel Trim Support ensures a foot friendly finish at the channel edge, & allows tile floor finishes with a thickness of between 8mm & 18mm to be used. Thicker sizes can be accommodated with care
- Removable Stainless Steel grate comes in different types: glass, tile insert and brushed stainless steel. Tile insert grate offering a flat cover or a 12mm recess to insert matching tiles
- Installation Sealing Kit comprising surrounding gasket is fitted at the factory is standard, & should be combined with Waterproofing Systems to seal into the floor structure

APPLICATIONS

The Linear floor gully is wide collection vessels used within wet room showers & are offered in various lengths. Suits:

- En-Suites – small bathrooms where space efficiency is at a premium.
- Refurbishments & New Build
- Floor Structures – Designed for especially for Board over Wooden Joist floors (18mm or more) & can also fit into Concrete floors without alteration.
