

BITUCHEM BUILDING PRODUCTS LTD

TECHNICAL DATA SHEET

Bitutack 40

GENERAL INFORMATION

Principally used to give an adhesive bond between bituminous layers.

Can be provided in bulk, 200kg drums or 25kg containers

A cationic bitumen emulsion to EN13808 2005 C40B5

Rate of spread guidelines are given in BS EN 594987

CHARACTERISTICS

Requirement	Selected classes from Table 3
Particle Polarity	Positive – Class 2
Breaking Value	120 – 180 – Class 5
Binder Content	≥ 38 Class 2

BINDER TEST RESULTS

Requirement	Selected Classes from Table 4
Penetration	≤ 220 Class 5
Softening Point	≥ 35 Class 6
