

## The new CLIP top 155°

### Quality with many advantages

Our CLIP mechanism has proven itself a million times over worldwide. Now we have re-engineered the CLIP top 155° to include a new closing mechanism, in combination with a new clip-on BLUMOTION 973A7000 clearly defined perfect motion. The result: A 155° hinge that provides complete functionality & satisfaction.

### CLIP top 155° in detail

Inline hinge arm with 0-protrusion

- For inner pull-outs, e.g. in the larder unit
- For pull-out surrounds, e.g. in office furniture

Cranked hinge arm

- For dual applications
- For mitred applications

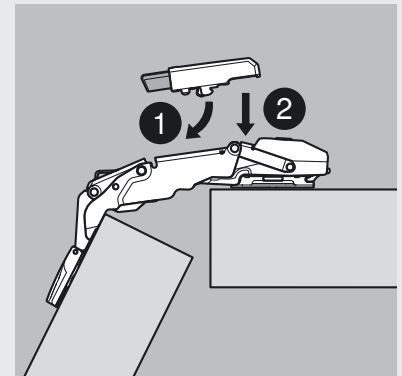

### Clip-on BLUMOTION

- Suitable for CLIP top 155° hinges with an inline or cranked hinge arm
- BLUMOTION fits perfectly with the hinge design
- Closing movement quality like the new CLIP top BLUMOTION hinge generation

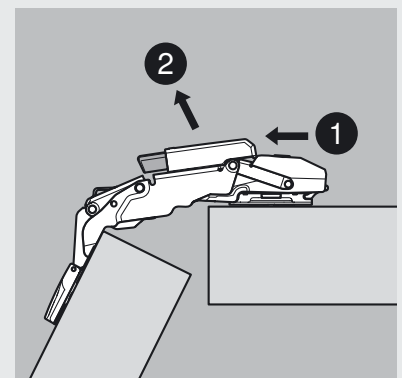

Order specification			
	INSERTA	Screw-on	Knock-in
Inline hinge arm (with 0-protrusion)	71T7540N	71T7500N	71T7530N
Cranked hinge arm	71T7640N	71T7600N	
Clip-on BLUMOTION	973A7000		

### Assembly and removal

The BLUMOTION unit is clipped on to the hinge arm tool-free.

For removal, simply unclip the BLUMOTION unit from the hinge.

### Assembly made easy

- Tool-free door to cabinet assembly and removal thanks to CLIP technology
- Easy 3-dimensional adjustment
- Tool-free INSERTA technology, knock-in or screw-on options for hinge boss assembly
- Existing mounting plates can be used
