

**i** High stability to maximise design possibilities

Reliable precision for when maintaining a gap is critical. Living room furniture needs to be versatile and with TANDEM plus for 50 kg, customised solutions are possible.

## Stable & consistent

Now with optimised sag values:  
TANDEM plus BLUMOTION for 50 kg

Now an even more stable runner provides optimised sag values for TANDEM, our proven runner system for wooden drawers and pull-outs. You can always depend on it even when furniture is near to the floor or with heavily-laden pull-outs.

### Perfect motion both opening & closing

- Smooth running action: Even with heavy contents
- For silent and effortless closing: integrated BLUMOTION function
- Handle-less furniture can be accommodated as TANDEM runners are fully compatible with SERVO-DRIVE (our electrical opening support system)

### Additional plus points:

- The same dimensions and drawer sizes as with the existing TANDEM programme
- Existing assembly devices and drilling templates can continue to be used

### Order specification

	Left/Right runners with integrated BLUMOTION	NL 450	566H4500B01

		NL 750	566H7500B01

Wide pull-outs offer lots of storage space: And with TANDEM plus for 50 kg, wooden pull-outs have smooth running action even under heavy loads.

Every living area demands:  
Runners that meet whatever challenges life throws at them.
