

Double Bumper Barrier

Protect against large MHE within busy warehouses. These double bumper barriers flex and absorb upon impact due to its unique design. They offer complete warehouse protection by creating safe zones of highly visible barrier systems. They provide the right amount of visibility and strength, whilst maximising space in the warehouse.

These barriers have been tested to meet and exceed the global PAS 13 standard, as independently certified by TÜV Nord.

Product Features

- Deflects under impact without damaging
- Quick and easy installation - all fixings provided
- High visibility colours clearly gives safe working boundaries for MHE drivers
- Available in single or double options
- Double barriers stand at 670mm high

Technical Details

- Use in ambient, chilled and freezer environments
- Non toxic and fade resistant material
- Fully recyclable
- Suitable for use in food production facilities and freezer environments

Product Specification

Material	High density polyethylene (HDPE) polymer
Height	670mm
Width	300mm (footplate)
Length	900mm upwards
Temperature range	Use in ambient, chilled and freezer environments
Floor anchors	Hilti HSA4
Colour options	Hi-Vis Yellow & Blue Safety Yellow & Grey
Barrier option	Double
Tested Impact Energy (J)	14,200*
Deflection (mm)	214

*Based on impact at 90°
