■ We create for you

Our commitment to you

• Laminate expertise

For over 20 years, Polyrey has been the market leader in the manufacturing and supply of High Pressure Laminate and Compact Grade Laminate, available in sheet sizes specifically suited for washrooms and related applications: schools, hospitals, airports, swimming pools, offices, hotels, retail...

• Polyrey at your service

- A dedicated sample service guarantees same day despatch by 1st class post for all requests received before 3pm.
- An experienced national sales force to ensure projects run smoothly from concept to completion.
- Ex-stock availability of full range for immediate delivery from our nationwide distribution network.

• Technical know-how

- Sheet sizes specific to washrooms and related applications.
- High-quality products.
- Always seeking new and emerging technologies to remain at the forefront of the latest innovations.

G014 Galeo Bleu Oslo

G023 Galeo Blanc Megève

Sanitized® Solid Grade Laminate

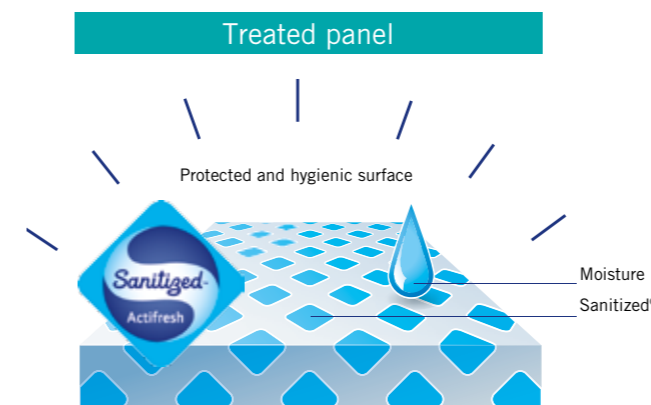

Sanitized® is an efficient and long lasting protection against bacteria, mildew, acarid and moisture, using silver ions. The silver ions contained in the Sanitized® treatment detect, attack and neutralise bacteria.

Long lasting hygienic products

On an untreated material, bacteria can reproduce every 20 mins causing a negative effect on hygiene.

Tests indicate that treatment with Sanitized® permanently protects the surface against up to 99.9% of bacteria.

The Sanitized® treatment is **resistant to professional cleaning products** commonly used in hospitals and catering and **maintains its effectiveness through the life cycle of the panel.**

Safe products for complete peace of mind

- **Hygienic and easy to maintain** due to its inert surface and resistance to many chemical products used in hospitals and other commercial facilities.
- Polyrey HPL, Compact and Panoprey products all have **extremely low formaldehyde emission** levels achieving E1 grade.
- Polyrey panels have low **VOC emission** rates (A).

Sustainable Development

• PEFC Certification

Our factories most recent project resulted in the successful completion of the PEFC audit giving us full certification on all of our product range.

Polyrey commits to delivering all of its panels as PEFC* certified eliminating the need for a special request.

* All our HPL and Compact are at least 30% product mix certified.
All our Panoprey are at least 90% product mix certified.

• FSC Certification

Polyrey received accreditation for Chain of Custody in line with the FSC® standards. All our plain colours as well as some of our woodgrains and patterns are FSC certified**.

** On request and subject to availability.

• ISO 14001 Certification

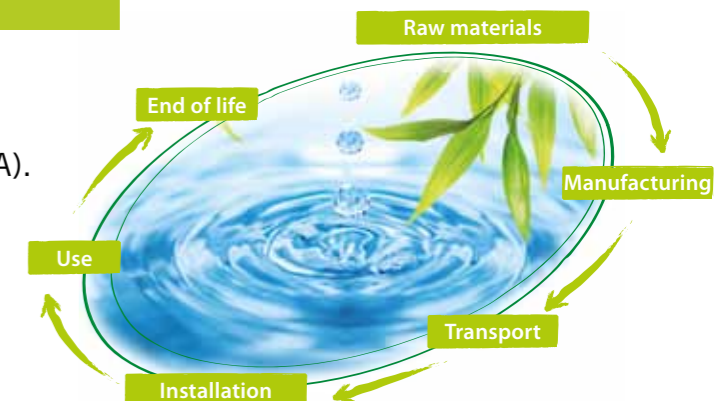

We achieved the ISO 14001 Environment Management System certification in 2010 for both of our factories.

• Life Cycle Assessment

Since 2009, Polyrey has considered the environmental impact of its products by means of the Life Cycle Assessment (LCA). This is the only measure of global impact on the environment from manufacturing to installation.

Inspiring new designs

For 2012 we have updated our product range with a host of new decors giving you greater creative freedom on projects. Perfect for use on their own, they also have the design flexibility to combine beautifully with the existing decors and plain colours in our collection.

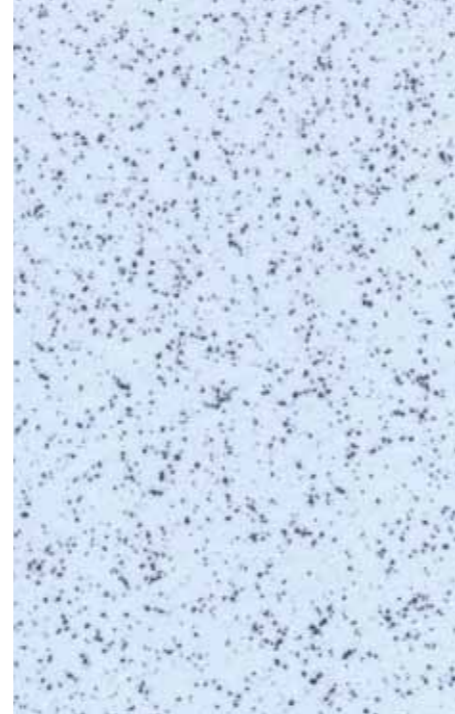

Galeo

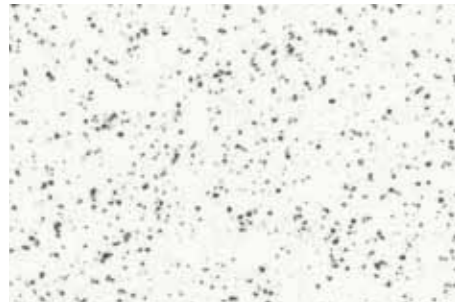

G027 Galeo Gris Tourterelle

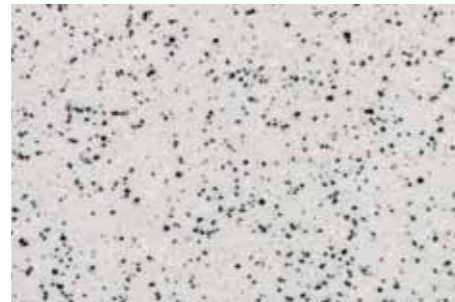

G025 Galeo Coquille d'Oeuf

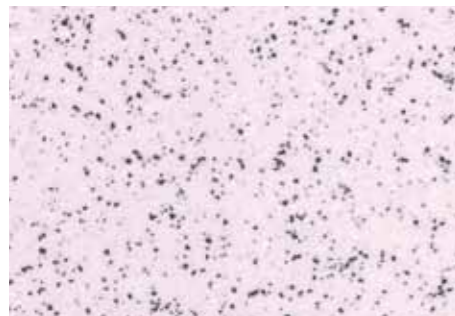

G014 Galeo Bleu Oslo

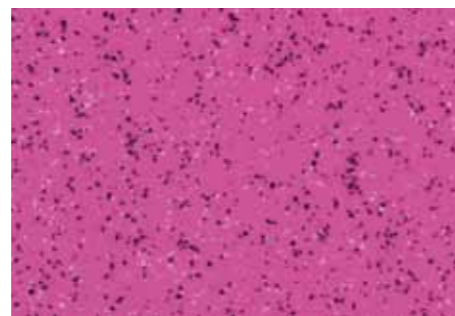

G023 Galeo Blanc Megève

G026 Galeo Gris Perle

G032 Galeo Rose Tendre

G034 Galeo Rose Bougainvillée

Galeo is a **design classic** for the washroom environment.

The simplicity of the random speckle effect is so **easy to specify** and with seven new colours to choose from, you can achieve **numerous design combinations** with exotic woodgrains such as Noyer Ombré and Zebrano Ambré.

Woodgrains

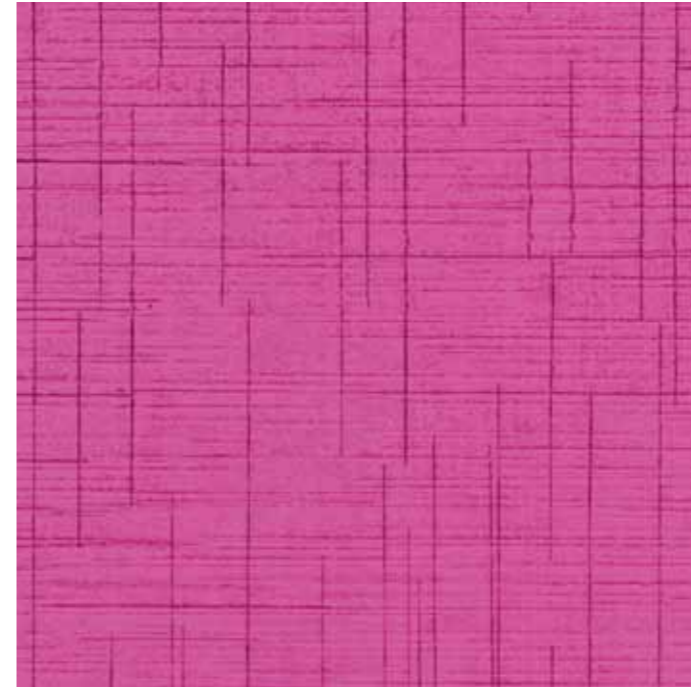

B100 Banian Blanci

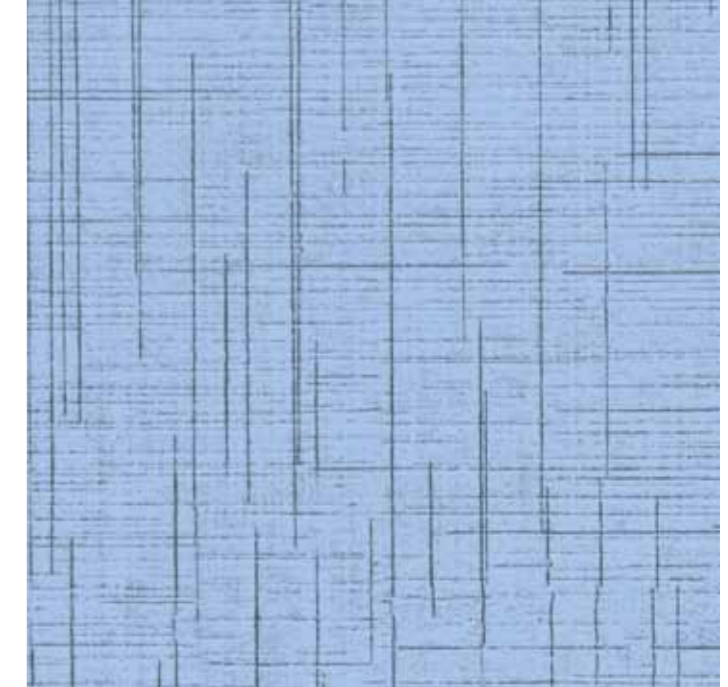

Banian Blanci combines an **exotic woodgrain design** with contemporary neutral colour tones.

Versatile, luxurious and sophisticated, it is the lighter counterpart of our very popular, dark woodgrain Banian Noirci.

Linea

L034 Linea Rose Bougainvillée

L033 Linea Bleu Oslo

Taking its inspiration from the Fifties, Linea is a graphic print with visual interest and depth. The **retro design** has been brought right up to date with the contemporary hues of blue and pink. On trend while still very commercial.

In this new range we also introduced the **very popular plain colour** from our interior fitting collection - Rose Bougainvillée.

Plain colour

Y022 Rose Bougainvillée

Luna

L016 Luna Beige

L017 Luna Rose

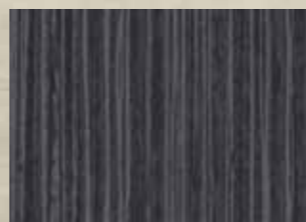

Luna re-interprets our popular Cosmic design for the modern washroom environment.

Luna offers a more **delicate speckle print** giving the impression of a plain colour with a design interest.

Product offer

Polyrey decors benefit from the latest technological advancements in printing to create an aesthetic effect that is close to perfection.

Ex-stock availability through nationwide distribution makes Polyrey's products the ideal choice for manufacturers and specifiers alike.

Polyrey High Pressure Laminate (HPL)

Polyrey HPL is exceptionally versatile, offering outstanding durability with superior resistance against impact, abrasion and general surface wear. Its surface is impervious to water and maintains its integrity even in the most heavy duty applications.

Polyrey HPL is readily available in larger sheet sizes specifically tailored to offer the best optimisation and most cost-effective solution for washroom and related applications.

Polyrey Compact Grade Laminate (CGL)

Compact Solid Grade laminate is a self supporting decorative panel with a black core offering the same surface advantages as those of HPL. This product is particularly suited for high humidity environments due to its inherent water resistance.

All Polyrey Compact is Sanitized® as standard at no additional cost. Perfect for sensitive (humidity, heat) and high traffic environments (Schools, Hospitals etc.), the Sanitized® additive ensures continuous protection against the development and proliferation of bacteria. Sanitized® guarantees a safe and hygienic surface (99.9% effective).

All 48 decors are available in both HPL and CGL offering you complete flexibility in your choice of product.

Polyrey Melamine Faced Chipboard (Panoprey)

Polyrey Melamine Faced Chipboard is a self supporting, moisture resistant board with two decorative faces offering the most cost-effective solution for non-wet area applications.

The most popular decors are available in Panoprey to complement HPL and CGL availability to further maximise the flexibility in your choice of product.

Glass Effect Vanity Worktops

Our new glass effect worktops effortlessly achieve a sleek finish. The black, red, white and frosted glass colours have been carefully selected to go with all colours schemes. These four striking designs will add contrast or will complement any chosen colour palette in the cubicle environment to simplify the specification process.

Glass effect vanity worktops

The four chosen decors are supplied as prefinished laminated panels available in 3070 x 600 x 18mm.

The innovative solid glass effect is achieved by using Rehau duo-colour edgings.

Polyrey high resistance gloss finish (BRIHG) enhances the luminosity and depth of the decors. This surface finish has been especially developed for horizontal applications with increased scratch resistance.
