WASHROOMS THAT WORK

# Washroom Brochure

# We believe well designed washrooms should be available to everyone.

Bushboard have been developing cubicle and washroom systems for over 80 years and our reputation has been built on delivering quality products at affordable prices.

We do this by combining innovative design with quality materials and fittings to deliver great style and great value.

This straightforward approach means our tried and trusted ranges are specified time and time again.

Sentinel Cubicles with Chartham Back to Wall Pan

# Exceptional products at exceptional prices.

Through our experience, we have perfected the art of delivering cost-effective washrooms without compromising on quality.

Attention to detail, in-built functionality, and the latest technology mean that we can deliver excellent value for money, every time.

It's simple. We work hard to develop great products at great prices so your washroom will work really hard for you.

Paraline Platinum Cubicles with Marden Wall Hung Pan

## We have shown Definition Full Height Cubicles

**Headrail:** Aluminium in Brushed Stainless Steel Effect

**Panels:** Arctic

**Pilasters:** Arctic

**Hardware:** Stainless Steel Faceplate

**Foot:** 20mm Stainless Steel Pedestal Foot

**Vanity:** Solid Surface Vanity in Elysian with Integral Basin and Insignia Lever Tap; Underpanels and Frame in Arctic

# Service and support.

From initial planning through to installation, we work hard to make sure choosing the right washroom at the right price is as easy as possible.

- **Specification** – From site visits to writing National Building Specifications (NBS), our UK wide team of Specification Managers are always on hand to help.
- **Estimating** – Our quotations are designed to give you a clear and concise breakdown of products and costs.
- **CAD** – You will be assigned a dedicated CAD technician who can draft drawings for approval prior to manufacture.
- **Delivery** – All delivery costs are included within our price.\*
- **Installation** – Our UK wide network of preferred installers are completely familiar with our washroom ranges and offer an exceptional service.
- **After Sales** – Your dedicated contact in our friendly and efficient after sales team will guide you from order to delivery and beyond.
- **Guarantees** – All of our products come with a 5 year guarantee.

\* Mainland UK only.

Aero Pearl Cubicles with Marden Wall Hung Pan

# Choosing your washroom couldn't be simpler.

Whether you are driven by budget or design, our simple 3 step process will ensure that your washroom is perfectly suited to your individual requirements.

# 1

Choose your cubicle system  
**see pages 7-43**

Our range of 14 cubicles are designed to deliver the perfect balance of quality and value by combining the very best in design with tried and trusted materials.

See pages 27-41 for our range of cubicles for children.

# 2

Choose your ducting system  
**see pages 44-57**

We offer pre-plumbed systems for fast and cost-effective installation, or for increased flexibility you can supply and fit your own sanitaryware with our Ezeeduct or panel only options.

# 3

Choose your vanity system  
**see pages 58-63**

We offer a number of smart, practical and hardwearing vanities to suit your needs. Choose pre-plumbed or supply and fit your own sanitaryware with our Ezeevanity and panel only options.

For Fastrack washrooms, Lockers, Benching & Accessories see pages 64-75.

# Choose your cubicle system

Bushboard cubicles are designed to deliver quality, durability and excellent value for money, down to the smallest detail.

Not only are our ranges exceptionally designed, they are also exceptionally easy to install and the final finish is always first class.

## We have shown Definition Full Height Cubicles

**Headrail:** Aluminium in Brushed Stainless Steel Effect

**Panels:** Wenge

**Pilasters:** Wenge

**Hardware:** Stainless Steel Faceplate

**Foot:** 20mm Stainless Steel Pedestal Foot

**Vanity:** Solid Surface Vanity in Elysian with Integral Basin and Insignia Lever Tap, Underpanels and Frame in Arctic

# Definition™

Definition is simplicity itself. Uncomplicated design, stunning hardware, at an exceptional price. This flush fronted cubicle range is nothing short of flawless.

Specify with our SanCeram sanitaryware range (see page 48) for our most cost-effective flush-fronted washroom system ever.

# Washrooms have never looked so good with our stylish Powder Coat finishes; Alpine, Titanium and Mineral.

All three colourways are available exclusively on both our Paralane and Aero ranges and are highly durable, easy to keep clean and elegant.

Add Stainless Steel hardware to create a striking look or for design simplicity itself opt for complementary Powder Coated hardware.

Finish your cubicle design by visiting us at [www.bushboard-washrooms.co.uk](http://www.bushboard-washrooms.co.uk) to view our exciting palette of panel colours.

---

## Choose your washroom in three simple steps:

→ Choose your range:

Paralane

Aero

→ Choose your finish:

Alpine

Titanium

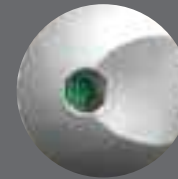

Mineral

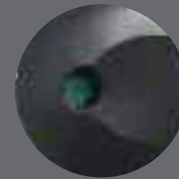

→ Choose your hardware:

Stainless Steel\*

ABS Titanium

ABS Mineral

\* Stainless steel incurs a surcharge. Please contact us for more details.

Create a visually stunning washroom by combining fresh Alpine Powder Coat with elegant Stainless Steel hardware then select from our exciting range of laminate colours or rich wood veneer.

For the height of sophistication choose full height cubicles and low 20mm floor clearance\*.

# Cubicles for children and education

Our education range takes you from nursery to university and has been designed to provide a choice of safe, hygienic and functional washrooms that are also fun!

Stimulate young minds with stunning colour options, unique laminate print designs and fun shapes. All the building blocks to create the right environment.

# Get creative!

With 36 stunning colour options, exciting laminate prints, shaped pilasters and doors, and 6 fittings colours, designing washrooms has never been so much fun!

Children want welcoming washrooms that are bright, clean and safe. Colour plays a vital role in achieving great washroom design and kids just love experimenting with our colour range and unique laminate prints for doors.

## Cubicle fittings colours

For Tiny Stuff, Kids Stuff and Tough Stuff choose from these 6 external fittings colours. HiZone available with Silver and Charcoal Grey fittings, Baseline available with Charcoal Grey.

Exciting Digital Prints for Doors

## Wild at Art

"This is my favourite because I like the pattern and the colours are fun."

Tommy, aged 8

## Colour creations

"The circles are nice and bright and good for art as it shows how to make other colours."

Tara, aged 7

## Hand prints

"I like the bright hand colours."

Maggie, aged 4

## Jumble blocks

"I love this because it is so colourful, all mixed up and fun to look at!"

Joseph, aged 7

Note: Laminate prints incur a surcharge and are only available on HPL. Images are not to scale.

# Now experiment with colour!

## Visit our design studio

Now experiment with our colour range by visiting our on-line Washroom Designer Tool, created to make choosing your colour scheme as easy as 1,2,3!

➔ **1** Start with our photo real blank canvas and select an item to colour.

---

From here to here!

➔ **2** Add a splash of your chosen colour at the touch of a button until your washroom is completed.

---

➔ **3** Once you are happy with your chosen colour scheme simply print your design.

---

## Presentation boards for presentations to the board!

Schools love our tailored mood boards. We can help with suggesting colour schemes or tell us your ideas and we will deliver your individual sample board in just 48 hours.

## Next Day Laminate sample service

Our 15cm x 15cm laminate samples are a must when deciding on your colour scheme.

Delivered in just 24 hours you can order via our website or call 01536 533620.

- 6 Door
- 7 Partition
- 8 Privacy skirting

## Typical cubicle configurations

- 9 Between walls
- 10 Against walls
- 11 Oversized between walls
- 12 Oversized against walls

# Equality Act 2010

All Bushboard cubicles can be delivered to comply with Building Regulations Part M and the Equality Act 2010\*. We can help you with planning your washroom and the issues you need to consider.

## Enlarged

Where four or more cubicles are provided in a washroom one of these must be enlarged. Enlarged cubicles are there to assist the ambulant disabled, people with babies or small children and/or people with bags.

## Standard

A standard WC compartment must have a minimum 450mm diameter manoeuvring space within the cubicle. This is to be maintained between the swing of the door, the WC pan and the side wall of the compartment.

## Ambulant Disabled

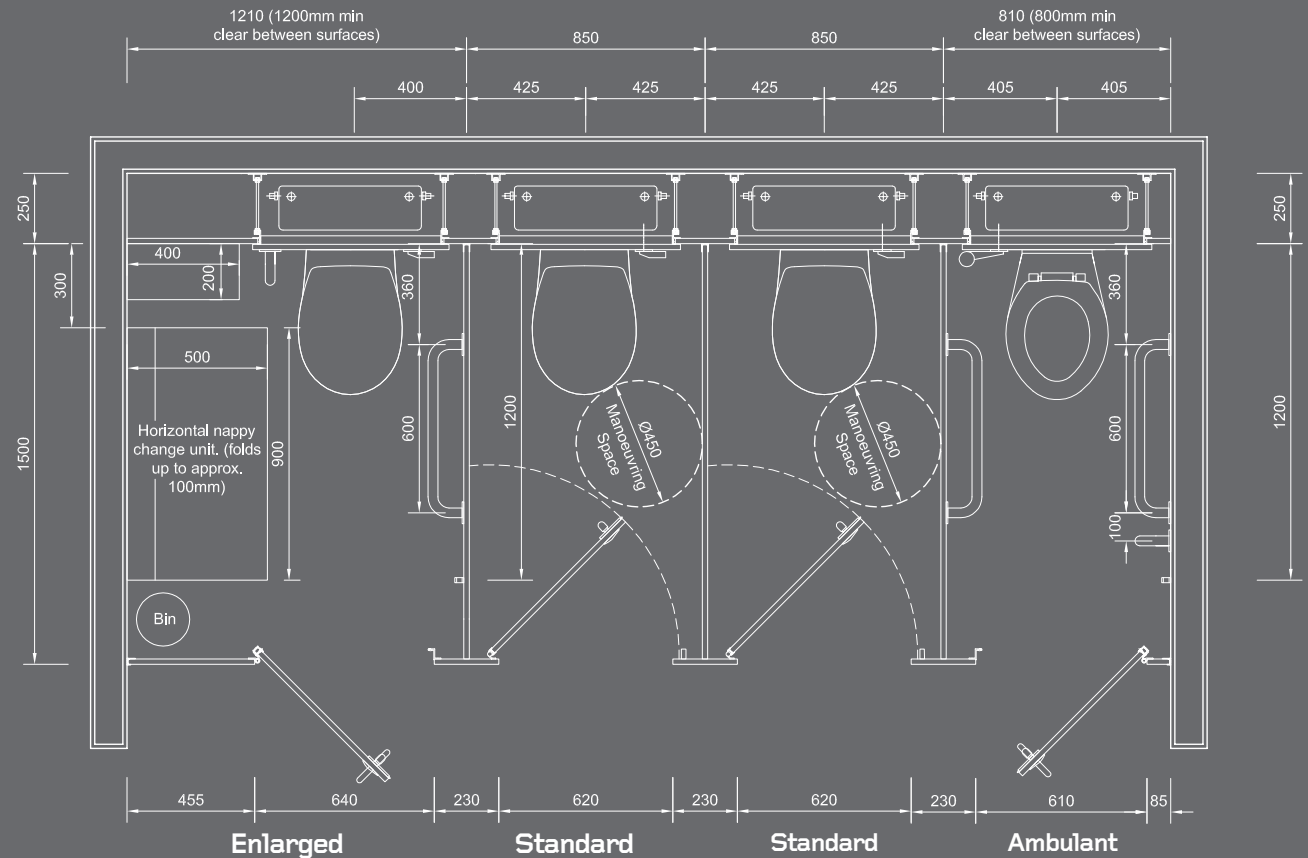

Every same-sex washroom must have at least one WC compartment (cubicle) that is suitable for the ambulant disabled. If there is only one cubicle in the washroom then this must be suitable for an ambulant disabled person.

In addition the ambulant cubicle must provide the correct grab rails and inner pull handles – for more information see our accessories range (page 73).

## Light Reflectance Values

Consideration should also be given to colour contrast to aid partially sighted people. To help you when choosing your colour scheme our colours are graded with an LRV value.

\* It is the responsibility of the customer to work towards your obligation to the Equality Act 2010 and to comply with the latest Building Regulations Part M. We recommend you contact your Local Authority Access Control Officer.

# Choose your ducting system

Marden Wall Hung Basin with Kludi Mini Lever mounted onto Warm Oak panels

Our ducting and access panel systems can be delivered in three ways.

Whether you choose our Ready Plumbed Modules, Ezeeduct, or panel only, we can deliver a flexible, cost-effective solution to suit your needs.

# The benefits of choosing Bushboard Ready Plumbed Modules

First designed nearly 10 years ago we wanted our RPM system to be the best pre-plumbed system on the market and today over 50,000 units are in use across the UK.

Changing the way washrooms are installed, pre-plumbed systems make duct fitting faster and easier. Delivered ready to install, each module combines a carefully selected range of sanitaryware and brassware fitted to panels and pre-assembled onto a rigid aluminium frame so on-site labour is kept to a minimum and the finished look is always first class.

→ **Guaranteed quality:**

a factory engineered solution that uses standardised processes and the latest manufacturing technology to deliver an exceptionally high quality, durable finished product

→ **Improved cost control:**

one product delivered from one source ensuring greater predictability of cost and programming

→ **Utilisation of off-site**

**skills:** removes the interface between joinery and plumbing trades reducing reliance on skilled labour on-site

→ **Improved sustainability:**

reduces the impact of construction activities on-site including noise, vehicle movements and waste reduction

→ **Reduced accidents:**

transferring work off site into our controlled production environment reduces site health and safety issues

→ **Reduced costs:**

our independent research proves RPM is up to 20% cheaper than traditional timber frame and panelling\*

→ **Time savings on-site:**

delivered ready to fit, RPM is proven to be up to 75% faster to install than traditional timber frame and panelling\*

→ **Testing off-site:**

units are pressure tested prior to delivery to ensure they are ready to install

→ **Delivery and distribution:**

units delivered palletised for ease of handling and distribution on-site

## Hinged and lockable access panels

The RPM extruded aluminium frame has been specifically designed to incorporate hinged panels to meet the increasing demand for quick and easy access to essential services for routine maintenance.

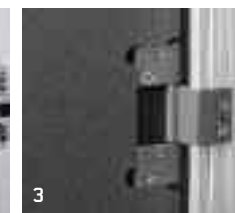

In addition, hinges make for easier manual handling and because panels are not completely removed to access pipework, any risk of damage or water ingress from potentially wet floors is eliminated.

The option of locks is ideal for areas where security is paramount.

Please note: Hinged panels available at a minimum height of 400mm and a maximum width of 700mm. Panels above 1500mm high must have 2 locks.

- 1 Hinged and lockable access panels
- 2 MFC and HPL hinge in pressed steel
- 3 SGL hinge in industrial nylon and extruded aluminium
- 4 Optional locks

# Ready Plumbed Modules – Technical overview

These pre-plumbed units come complete with panels, sanitaryware, brassware and plumbing all assembled onto a rigid aluminium frame ready to install. All Bushboard wall hung WCs are factory fitted prior to delivery. Floor mounted back to wall WCs are supplied separately for on-site fixing.

Please note we have a range of HTM 64 and 68 compliant Ready Plumbed Modules for Healthcare

## Specification Options

### → Performance

MFC  
HPL  
SGL  
Wood Veneer

### → Colours

Full colour range

### → We supply

Rigid aluminium frame  
Access panels  
Flashgap panels  
Powder coated skirting  
Panel fittings  
Pre-plumbed Sanitaryware  
Pre-plumbed Brassware

### → 1 Framing

Factory assembled rigid extruded aluminium frame

Integral rail for cisterns and sanitaryware

### → 2 Flashgaps

Supplied oversize for on-site adjustment

### → 3 Panels

Factory fitted access panels

### → 4 Plumbing

Pre-plumbed and pressure tested where appropriate

### → 5 Fittings

Push fit, lift off or hinged panel fittings

### → 6 Tiebacks

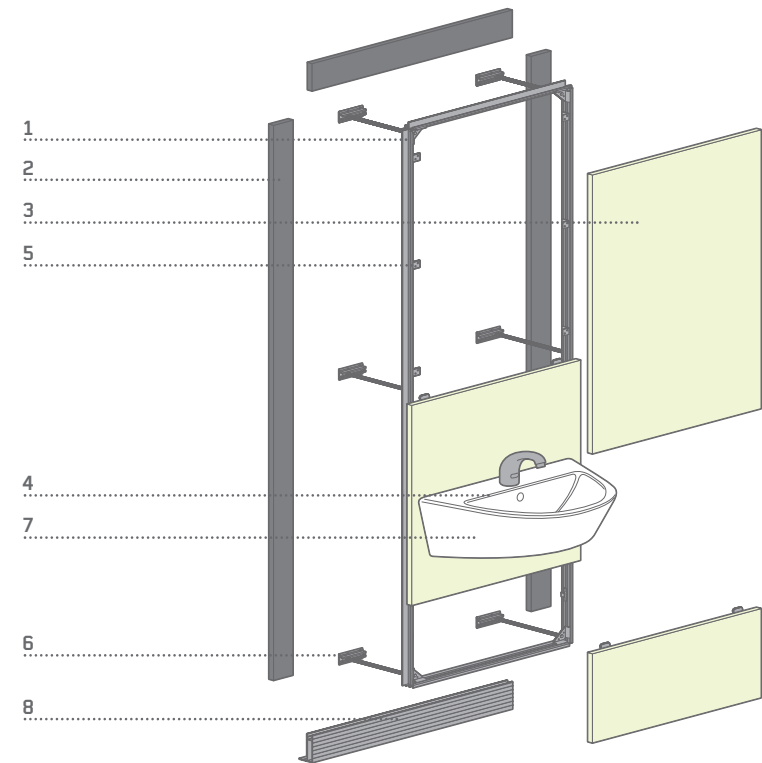

Threaded rods, adjustable in two planes, lock frame to the building structure

### → 7 Sanitaryware

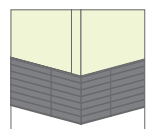

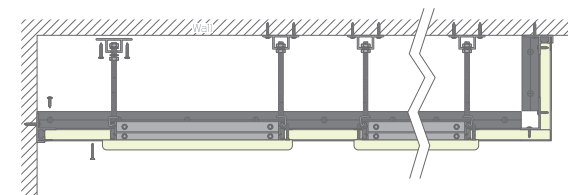

A dedicated range of sanitaryware specifically chosen and tested for Bushboard RPM units

### → 8 Skirting

Aluminium skirting, pre-finished in Silver or Charcoal Grey Powder coat. Also available with flashgap skirting option.

Plan view of RPM wall system

Moulded corner section for ease of installation

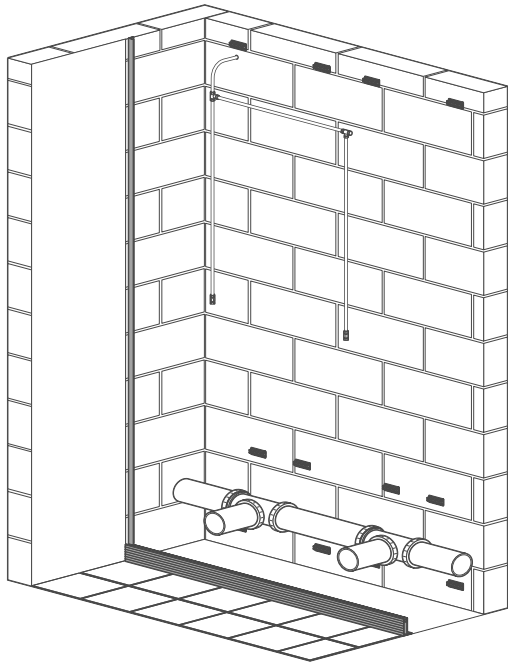

# Fast installation in 3 simple steps

## ➔ Step 1

### Preparation:

- ➔ Set out position of skirting, tie brackets and wall channel
- ➔ Fix skirting to floor
- ➔ Fix brackets to wall

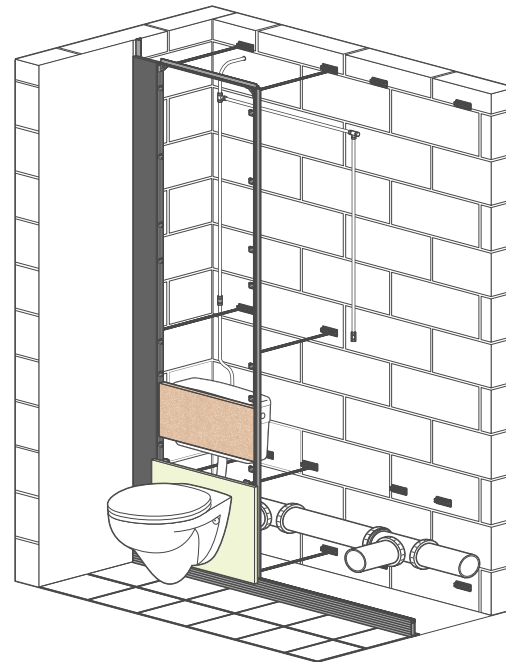

Skirting can be provided at an earlier stage to enable installation of floor finishes.

## ➔ Step 2

### Fixing the RPM units:

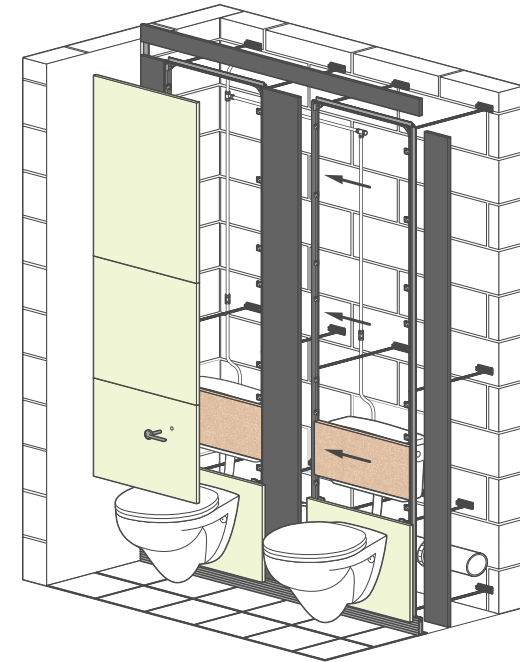

- ➔ Locate the RPM units onto skirting
- ➔ Lock tie bars onto wall mounted brackets

## ➔ Step 3

### Finishing:

- ➔ Cut and fit horizontal and vertical flashgap panels
- ➔ Connect services
- ➔ Refit access panels

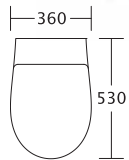

# RPM sanitaryware & brassware

**Guarantees:** Ceramic products are guaranteed for 25 years, Brassware is guaranteed for between 5 and 12 years dependent on manufacturer. Contact us for details.

With our extensive range of sanitaryware we can offer you our most cost-effective pre-plumbed system ever!

Working in partnership with a number of leading suppliers, we have carefully selected our range of sanitaryware and brassware with quality, durability and cost in mind.

- 1 coat hook
- 2 aluminium pedestals
- Screws, plugs + channel through fixings

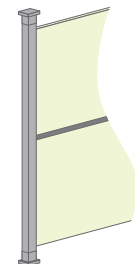

## GR1 Ambulant/Enlarged Grab Rail Pack

- 3 grab rails - White powder coated 600mm
- 2 door opening bars 300mm – Dark Grey powder coated
- 1 fixing pack complete

## C4 Floor to Ceiling Post

Required when ordering free standing cubicles.

- 1 floor to ceiling post 3750mm
- 2 flanges
- 1 UPVC door cap/wall channel 1800mm
- Screws, plugs + channel through bolt fixings

# Fastrack duct panels

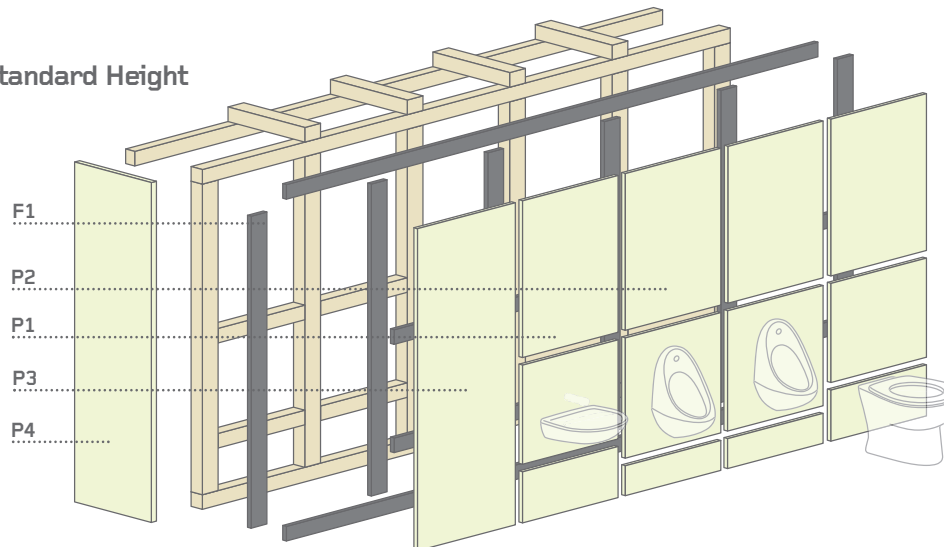

Fastrack duct panels can incorporate most standard sanitaryware items.

- All components delivered to standard dimensions, boxed and clearly labelled
- Duct widths and heights can be varied by adjusting width of flashgaps
- Installer to provide appropriate timber frame to support duct panels (typically 50mm x 50mm softwood frame)
- Packs inclusive of detailed installation instructions

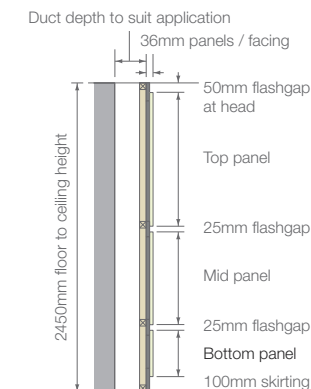

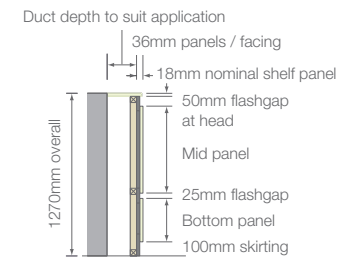

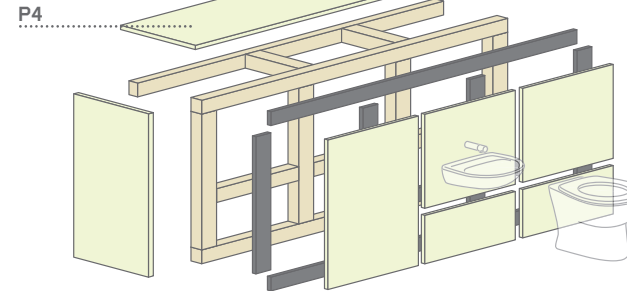

## Specification Options

- **Performance**  
MFC
- **Colours**  
6 colour options for all panels – see page 68
- **Service**  
Fastrack
- **Panels and flashgaps**  
Square edge with matching 1mm PVC lipping
- **Fittings**  
Lift off clips

## Standard Height

## Shelf Height

### P4 Plain Panel

- 1 2250 x 300mm full panel

### Plain Panel/Return End

- 1 2250 x 300mm full panel

### F1 Flashgap Pack

- 2 flashgaps – unedged 2600 x 200mm
- 1 flashgap – edged 2600 x 201mm
- 16 shrinkage plates + screws

### P1 Washbasin/WC Panel Pack

- 1 bottom panel 405 x 700mm
- 1 middle panel 670 x 700mm
- 1 top panel 1125 x 700mm
- 1 x 1mm PVC re-edging strip 2500mm
- 16 plastic clips + screws

### P2 Urinal Panel Pack

- 1 bottom panel 225 x 700mm
- 1 middle panel 850 x 700mm
- 1 top panel 1125 x 700mm
- 1 x 1mm PVC re-edging strip 2500mm
- 16 plastic clips + screws

### P3 Plain Panel

- 1 plain panel 2250 x 700mm
- 1 x 1mm PVC re-edging strip 2500mm
- 10 plastic clips and screws

### P4 Plain Panel

- 1 plain panel 2250 x 300mm
- 1 x 1mm PVC re-edging strip 2500mm
- 10 plastic clips + screws

All sanitaryware to be supplied by others.

# A step by step guide to selecting your Fastrack Washroom packs.

## Call our friendly sales team who will help to process your order on 01536 533620.

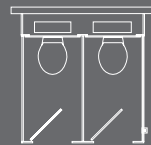

### ➔ 1 Cubicle selection

- ➔ Identify the layout of the cubicles you require from these four options and refer to the table next to it.
- ➔ Identify the number of cubicles you require along the top row of the grid.
- ➔ Read down the column to determine the pack and quantity you require.

#### Between walls

No. cubicles	1	2	3	4	5	6	7	8
Door pack	1	2	3	4	5	6	7	8
Fittings pack	1	2	3	4	5	6	7	8
Partition pack	0	1	2	3	4	5	6	7
Floor/ceiling post pack	0	0	0	0	0	0	0	0
Max. width (mm)	1060	2120	3180	4240	5300	6360	7420	8480

#### Freestanding

No. cubicles	1	2	3	4	5	6	7	8
Door pack	1	2	3	4	5	6	7	8
Fittings pack	1	2	3	4	5	6	7	8
Partition pack	2	3	4	5	6	7	8	9
Floor/ceiling post pack	1	1	1	2	2	2	2	2
Max. width (mm)	1060	2120	3180	4240	5300	6360	7420	8480

#### Against walls

No. cubicles	1	2	3	4	5	6	7	8
Door pack	1	2	3	4	5	6	7	8
Fittings pack	1	2	3	4	5	6	7	8
Partition pack	1	2	3	4	5	6	7	8
Floor/ceiling post pack	0	0	0	0	0	0	0	0
Max. width (mm)	1060	2120	3180	4240	5300	6360	7420	8480

#### Inline cubicles

	Between walls	Against walls
Door pack	1	1
Fittings pack	1	1
Partition pack	0	1
Max. length (mm)	2000	2000

Min. cubicle width 750mm

#### Options

- ➔ Children's door instead of standard door pack
- ➔ Door packs and in-line packs available with square edge pilaster or postformed pilaster
- ➔ Ambulant/enlarged grab rails and door opening bars are available separately.

### ➔ 2 Ducting selection

- ➔ For each range of panels determine how many you want of each type.
- ➔ Check they will fit in the space available.

Please note: Always leave a vertical gap 25mm wide between a panel and a wall. Leave a 25mm wide vertical gap between each panel. For WC panels, leave 50mm for fixing a cubicle partition. Plain panel packs P3 and P4 can be cut down and re-edged on site to cater for ranges that do not accommodate 700mm modules.

**For more information on junction details visit our website [www.bushboard-washrooms.co.uk](http://www.bushboard-washrooms.co.uk)**

Please note for each panel you will need one flash gap pack.

### ➔ 3 Vanity selection

- ➔ Determine how many vanity basins you require in each top.

1500mm long top	Up to 2 basins	Pack V1
-----------------	----------------	---------

- ➔ Check that the vanity top will fit into the available space.
- ➔ The vanity pack includes under panel, return end, flashgap and a fixing kit.
- ➔ Supporting timber framework to be supplied by site.

# Lockers and benching

Protec lockers are a flexible and secure locker system with a strong aluminium carcass and SGL doors making the whole system totally water resistant. Add a choice of benches selected to provide you with the most popular styles and you have the complete changing room offer.

# Protec® lockers

Featuring a satin anodised aluminium carcass providing a robust structure, each individual locker has an easy to clean injection moulded interior tray and anti-finger trap safety hinge to doors. With Protec it's simple. Choose your locker model, choose your locking system and select your door colour.

You can choose any combination of the six locker models to suit your installation. Lockers are delivered pre-assembled and ready to install in 4 weeks. For the electronic locking system a 5 week leadtime is required. For wet areas we suggest an additional base is provided.

## Service

All lockers are delivered pre-assembled and ready to install in 4 weeks. Lockers requiring electronic locking system require a 5 week leadtime.

## Locking mechanisms

We offer a range of lock options to suit most environments. For further information visit [www.bushboard-washrooms.co.uk](http://www.bushboard-washrooms.co.uk).

### Camlock

Simple and easy to use with red or blue wristbands.

### Padlock and hasp

An ideal solution for schools\*.

### Coin return

A popular choice.

### → 1 Panels

SGL for total water resistance and exceptional durability

### → 2 Carcass

Satin anodised aluminium provides robust structure

### → 3 Doors

SGL doors with integrated hinge design

### → 4 Tray

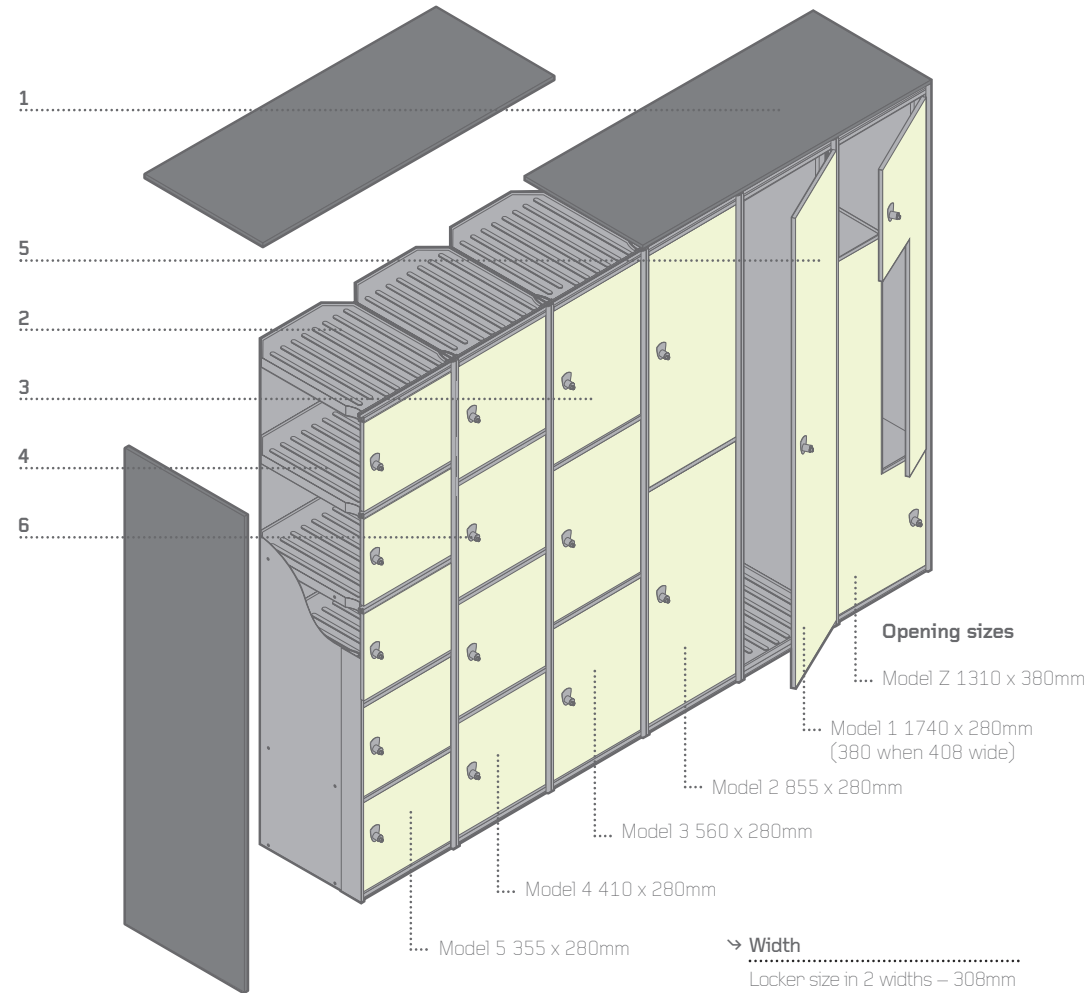

Easy to clean injection moulded interior trays

### → 5 Coat Hook

Integral coat hook to maximise internal space

### → 6 Locks

Choice of lock options

### Opening sizes

Model Z 1310 x 380mm

Model 1 1740 x 280mm  
(380 when 408 wide)

Model 2 855 x 280mm

Model 3 560 x 280mm

Model 4 410 x 280mm

Model 5 355 x 280mm

### → Width

Locker size in 2 widths – 308mm and 408mm

\*Z locker available in 408mm only

### → Height and depth

Overall locker height is 1800mm

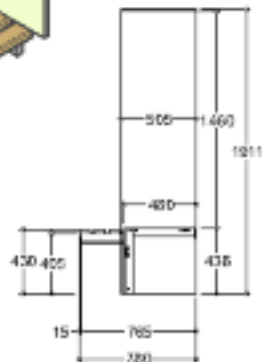

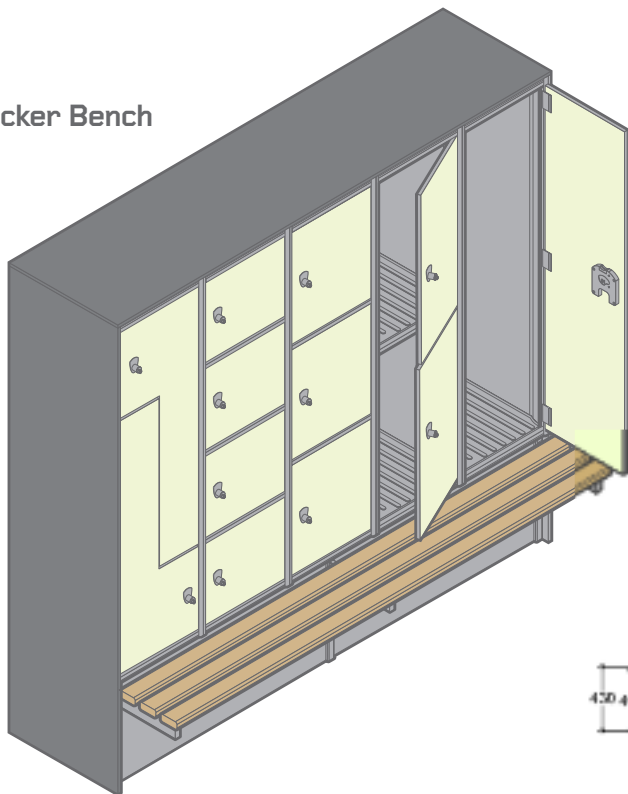

Overall locker depth is 505mm

# Bench profiles

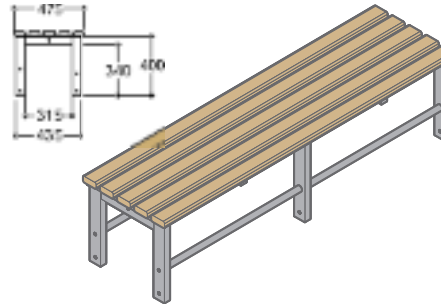

Our benches have been selected to provide the most popular styles for all types of installations.

Ash wood slats complemented by a dark grey nylon coated galvanised steel framework are supplied flat packed in 4 weeks. Slats are available in a range of lengths (1000mm\*, 1300mm, 1800mm and 2500mm) and can be cut to size and finished on-site for maximum flexibility.

## Cantilever Perimeter\*\*

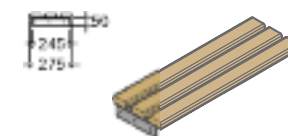

## Perimeter bench with legs \*\*

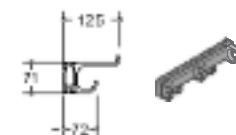

## Island with bench hooks

## Cubicle bench

## Wall mounted coat hook

\* For cubicle benches only

\*\* Available in 3 or 4 slat options

# Accessories

**Cylindrical Liquid Soap Dispenser** 0302508  
Wall mounted. Stainless steel with chrome finish.

**Liquid Soap Dispenser** 0302532  
Polished chrome finish

**Liquid Soap Dispenser (Stainless Steel/White Metal)** 0302525/0302521  
Lockable, wall-mounted dispenser

**Light Grey Plastic Liquid/Foam Soap Dispenser** 0302513/0302514  
Wall-mounted grey plastic dispenser with stainless steel cover.

**White Plastic Liquid Soap Dispenser** 0302540  
Wall-mounted white plastic dispenser.

**Paper Towel Dispenser (Stainless Steel/White Metal)** 0302526/0302522  
Lockable, wall-mounted paper towel dispenser.

**Light Grey Plastic Paper Towel Dispenser** 0302519  
Wall-mounted grey plastic paper towel dispenser with stainless steel cover.

**White Plastic Paper Towel Dispenser** 0302537  
Wall-mounted white plastic paper towel dispenser.

**Jumbo Toilet Roll Holder (Stainless Steel/White Metal)** 0302527/0302523  
Lockable jumbo toilet roll holder.

**White Plastic Mid-Jumbo Toilet Roll Holder** 0302538  
Wall-mounted, white plastic mid-jumbo toilet roll holder.

**Light Grey Plastic Toilet Tissue Dispenser** 0302517  
Wall-mounted grey plastic toilet tissue dispenser.

**White Plastic Toilet Tissue Dispenser** 0302539  
Wall-mounted, white plastic toilet tissue dispenser.

**Stainless Steel Toilet Roll Holder (Single/Double)** 0302509/0302510  
Stainless steel toilet roll holder with concealed fixings.

**Aluminium Toilet Roll Holder (Dark Grey/Light Grey/Satin Chrome)** 0380082/0380081/0380080  
Cast aluminium toilet roll holder with lockable core.

**Nylon Toilet Roll Holder (White/Light Grey/Dark Grey)** 0300301/0300303/0300146  
Single nylon toilet roll holder with concealed fixings.

**Lockable Nylon Toilet Roll Holder (White/Light Grey/Dark Grey)** 0300401/0300403/0300147  
Single, lockable nylon toilet roll holder with concealed fixings.

**Stainless Steel Automatic Dryer** 0302019  
Automatic warm air dryer with brushed stainless steel finish.

**Silver Automatic Jet Dryer** 0302536  
High speed jet hand dryer with silver cover. Low energy consumption.

**White Metal Automatic Dryer** 0302005  
Automatic warm air dryer with white metal finish.

**Automatic High Speed Eco Dryer** 0302535  
Compact high speed silver hand dryer. Low energy consumption

**Stainless Steel Coat Hook** 0397094  
Stainless steel with integral rubber buffer in brushed satin finish.

**Aluminium Coat Hook (Light Grey/Dark Grey/Satin Chrome)** 0380066/0380067/0380065  
Lightweight aluminium with concealed fixings.

**Nylon Coat Hook (Dark Grey/Light Grey/White)** 0300137/0300139/0300201  
Lightweight nylon with concealed fixings.

**Back to Back Aluminium Door Handle (Silver/Charcoal)** 0182211/0182210  
400mm back to back fixing handle. DDA compliant.

**Stainless Steel Door Handle (Chrome/Satin)** 0182208/0182203  
400mm pull handle with concealed fixings.

**Bolt Through Aluminium Door Handle (Silver/Charcoal)** 0182213/0182212  
400mm bolt through handle. DDA compliant.

# Performance & delivery

## Real Wood Veneer

Medium use – Dry – Finished panel thickness 18mm\*

MDF faced both sides with Real Wood Veneer, suitable for dry environments with light to medium use. Panels supplied square edged with 3mm real wood veneer lipping.

## Melamine Faced Chipboard – MFC

Light to medium use – Dry – Finished panel thickness 18mm\*

High performance Melamine Faced Chipboard 630kg/m<sup>3</sup> density, moisture resistant, suitable for dry environments with light to medium use. Panels supplied square edged with matching 1mm PVC lipping.

## High Pressure Laminate – HPL

Medium use – Dry – Finished panel thickness 18mm\*

High Pressure Laminate bonded onto 630kg/m<sup>3</sup> density moisture resistant chipboard, suitable for dry environments with more intense use. Panels supplied square edged with matching 1mm PVC lipping or postformed vertical edges.

## Solid Grade Laminate – SGL

Heavy use – Wet or dry – Finished panel thickness 13mm\*

High density Solid Grade Laminate, 1400kg/m<sup>3</sup> impervious to water, suitable for the most demanding environments where strength and/or water resistance are needed. Polished radiused black edges as standard.

## Vanity Units

As well as High Pressure Laminate and Solid Grade Laminate, vanity tops are also available in Solid Surface.

## Solid Surface

Heavy use – Wet or dry

Solid surface is manufactured from an advanced composition of minerals and acrylic polymer that delivers a seamless finish to vanity tops and is exceptionally hardwearing.

## Delivery

Here at Bushboard, we are committed to ensuring your order is delivered on time, in full and in perfect condition. With this in mind we have invested in the latest manufacturing technology to ensure the entire process; from order to delivery; is as efficient as possible.

All of our panels are manufactured to your specific site dimensions and full CAD drawings are supplied with delivery. You also have the option to receive drawings for your approval prior to manufacture.

Contact us on 01536 533620 to find out more.

\* Nominal thickness

→ All lipping is applied with PUR adhesive

→ Real Wood Veneer, MFC and HPL are not suitable for use in wet environments

See our separate Colour Selector for our full range of panel colour options.

# Environmental

We understand the social and economic importance of protecting the environment and are fully committed to continually improving our environmental performance.

Certified as ISO 14001 compliant, we regularly assess the environmental impact of our business operations and take appropriate action to minimise any adverse impacts. Some of our resulting initiatives include:

- **Paperless Systems** – All of our quotes are emailed and our brochures are available electronically so we only print when absolutely necessary.
- **Waste Management** – Significant investment in the latest technology ensures that waste board material is kept to a minimum, whilst any that is produced is used as fuel for our biomass boiler.
- **FSC** – The real wood veneer used in our products is FSC certified, whilst any brochures we do print are on FSC accredited stock.
- **Reducing Carbon Emissions** – We have installed video conferencing facilities across all of our sites in order to minimise business travel.
