WASHROOMS THAT WORK

Colour Selector

We believe well-designed washrooms should be available to everyone...

Bushboard have been developing cubicle and washroom systems for over 80 years and our reputation has been built on delivering quality products at affordable prices.

We do this by combining innovative design with quality materials and fittings to deliver great style and great value.

This straightforward approach means our tried and trusted ranges are specified time and time again.

Whilst all of our colours are graded with Light Reflectance Values (LRV), it is the responsibility of the customer to ensure that the washroom colour contrast complies with the Building Regulations Part M. We always recommend you contact your local access control officer.

...in an amazing range of colours!

We also understand that colour can truly enhance any washroom design.

Our carefully selected palette of colours includes bold, striking shades alongside cool understated greys, warm rich veneers and pale pastels so whatever look and feel you want to create the only limit is your imagination!
