Product Reference Alpha Range vinyl concertina system (Manufactured in the UK)
Characteristics Top Hung, with no floor track or floor supported fabric backed vinyl concertina system with internal 6mm thick pantographic steel rods. All screens are made to suit on site dimensions and can be manufactured up to 6,000mm high. Possible stacking options include single wing, bi parting or floating wings

Nominal Thickness 250mm (standard stack) or 410mm (wide stack)

Vinyl Construction Internal framework of electro-galvanised 6mm steel rods and steel hinges at 1000mm centres. Acoustic ratings are achieved by means of fabric quilting within the system as required.

System Operation Manually operated

Finish Available in a wide range of colours from leading fabric manufacturers Kayospace. These are 24 standard colours from stock and special colours are available to order. Systems can be differing colours on each side.

Fire Rating Conforms to Class '0' and Class'1' when tested to BS 476 Parts 6 & 7 as standard and incorporates an early fire warning vapour release.

Head Track Satin anodised aluminium head track, 33mm x 34mm.
