Recycled Carpet Tile Heavy Contract Loop Pile

VT 480 is an eco-designed carpet tile that brings together top of the range performance with high standard eco credentials. This high performance tile is produced with 100% recycled Econyl solution dyed polyamide and offers a class 33 heavy commercial rating.

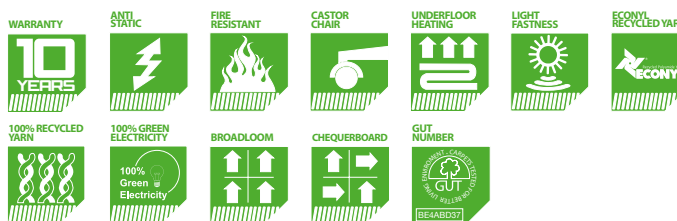

CONSTRUCTION

Fibre Content	100% Polyamide Solution Dyed
Gauge	1/10
Tuft Density	193550 per m ²
Backing	Bitumen
Pile Weight	480g/m ²
Pile Height	2.40mm
Total Weight	4040g/m ²
Total Height	5.70mm
Tile Size	50cm x 50cm
No of Tiles per box	20

All weights and thickness measurements ± 10%. All other dimensions ± 1%

PERFORMANCE

Static	< 2 kV
Flammability	Bfl-s1
Dimensional Stability	< 0.20%
Castor Chair	BS EN 985
Underfloor Heating	Up to 27°C
Impact Sound Insulation	Lw 24dB
Colour / Light Fastness	BS 105 B02 to light BS 105 E01 to water BS 105 X12 to wet and dry rubbing

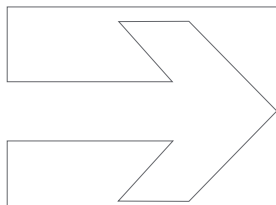

INSTALLATION

This product must be fitted in accordance with the CFS fitting instructions, which are available online on our website www.cfscarpets.co.uk

RECOMMENDED ADHESIVES

F Ball F41 tackifier, Laybond 79 & Mapei ECO Tack

SAMPLING SERVICE

If you require a large sample, please list the product name and colour followed by your address details and email to: samples@cfscarpets.co.uk

1 100% RECYCLED YARN

- Manufactured from recycled fishing nets and post-industrial threads.
- 50% less energy used in production of recycled yarns compared to producing new fibres.
- Up to 30% reduction in the carbon impact through reduced frequency of refurbishment.

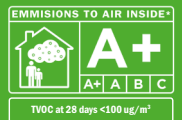

2 LOW MAINTENANCE

- New generation of solution-dyed polyamide yarns.
- Greater resistance to soiling and permanent staining, due to the structure of the yarn system and locked in colour pigments.
- Improved colour resistance to sunlight during the life of the carpet, as Econyl Solution-dyed Polyamide fibre maintains a greater depth of colour for a longer time.

3 IMPROVING INSIDE AIR QUALITY

- In today's office environment, carpets are the only floorcovering that can help prevent the dispersion of dust particles - and therefore allergens - in the air, as the inherent filtering effect of the carpet means they retain the dust particles until they can be vacuumed up from the pile surface

* Information on the level of emission of volatile substances in indoor air poses a risk of inhalation, on a scale ranging from Class A+ (very low emissions) to C (high emissions)

4 100% GREEN ELECTRICITY

- Manufactured using 100% Green Electricity

5 CLASS 33 HEAVY COMMERCIAL RATING

- This product holds a Class 33 Heavy Commercial Rating
