

ABOUT XONAR SHUTTERS

Xonar Shutters represent one of the most comprehensive, innovative and advanced ranges of security shutters on the market. Designed to provide a shutter system that is both visually appealing and easy to install, the passion to continually develop and innovate has seen Xonar Shutters claim many industry firsts.

SELF-LOCKING TECHNOLOGY

Secure in any position, Xonar Shutters can feature a unique self-locking capability that ensures the shutters cannot be lifted without additional locking systems. Available on the 600Ideal for first point of entry.

- » Xonar Shutters Guarantee: 12 month guarantee on faulty materials and workmanship
- » Accredited and regulated in accordance with ISO 9001:2015
- » Made in Great Britain: All assembly takes place in our purpose-built Reading factory

THE XONAR SHUTTERS KEY FEATURES

» Security ratings available

Tested and certified to independent security accreditation LPS 1175: Issue 7. Available certifications include SR2, SR3 and SR4

» Built in capability

Compatible with structural lintel or non-structural box certified to LPS 1175: Issue 7 SR2 & SR3

» Internal and external fit

Available for face fit internally and externally to suit all application requirements

» Aluminium construction

Constructed from high grade aluminium, Xonar Shutters are lightweight, neat and strong

INDEPENDENTLY CERTIFIED TO LPS 1175 WITH SBD ACCREDITATION

Concerned with ensuring all properties are sufficiently reinforced against forced entry, the security standard LPS 1175 is regulated by the Loss Prevention Certification Board (LPCB).

Undergoing rigorous testing conditions and complying to strict manufacturing regulations, Xonar Shutters are available as both internally and externally face-fixed.

Certification available to LPS 1175 Issue 7 SR2, SR3 & SR4.
