

## Codi 'M' (6.5.6) Fencing System

Incorporating a twin wire arrangement of 6mm horizontal wires and 5mm single vertical wire, this system offers a lighter weight alternative to the Codi 'H' system.

Offering economy and simplicity, whilst retaining strength and durability, Codi 'M' is the perfect

solution to many applications including sports, educational, commercial and industrial facilities.

**Sizing:** Panel mesh is 200mm x 50mm comprising two 6mm horizontal wires and a single 5mm vertical wire.

POST FIXING SCHEMATIC (ABOVE)

CODI "M" INSTALLATION (ABOVE)

| Fence Height (m) | Post Length (m) | Fixing Method             | No. of Fixings | Post Section (mm) |
|------------------|-----------------|---------------------------|----------------|-------------------|
| 1.23             | 1.8             | Clamp Bar & Security Bolt | 4              | 60 x 60 SHS       |
| 1.83             | 2.4             | Clamp Bar & Security Bolt | 6              | 60 x 60 SHS       |
| 2.03             | 2.7             | Clamp Bar & Security Bolt | 6              | 60 x 60 SHS       |
| 2.43             | 3.1             | Clamp Bar & Security Bolt | 7              | 60 x 60 SHS       |
| 3.03             | 3.75            | Clamp Bar & Security Bolt | 10             | 80 x 40 SHS       |
| 4.06             | 4.75            | Clamp Bar & Security Bolt | 12             | 80 x 40 SHS       |
| 5.09             | 6.0             | Clamp Bar & Security Bolt | 14             | 100 x 50 SHS      |
| 6.09             | 7.0             | Clamp Bar & Security Bolt | 16             | 120 x 60 SHS      |
