connection
space that works

Space
that
works

Welcome to our new world.

As the world of work evolves, so do we. We are Connection. We don't just make furniture, we create products and solutions that make space work.

Our growing success is built on close partnerships and the pillars of innovation, quality, value, service and integrity. In today's fiercely competitive global commercial interiors market, sometimes that just isn't enough. Increasingly the competitive differentiator influencing the decisions clients make is a strong brand.

We've spent a year working with best in class advisors, analysing what we're all about and seeing the wood for the trees. The results are compelling. In short, it's all about agility. Agility to respond and, most compellingly, our focus on the global shift towards agile work.

Our support materials are focused on supporting agile work. Resources from knowledge papers to Revit families are hosted on our new web site along with inspiration for anyone seeking to transform their space into a strategic asset.

Connection's new brand is about celebrating our core values. It's a new look and feel that reflects what we're all about - helping designers, dealers and end users to create effective space for productive people.

Collaborate

A space for sharing

The collective intelligence of groups consistently out-performs individual intelligence because of access to a diversity of experience and skills. Sharing knowledge and information fuels innovation; getting to ideas faster, building momentum and staying competitive.

Focus

Cutting out the distractions

Productivity can be seriously affected by a rise in interruptions and disturbances. Appropriate acoustics are critical to maintain your position 'in the zone', but so too are the dimensions of territorial privacy and visual privacy.

Learn

A learning experience

Some knowledge, 'explicit' knowledge, is transferred in formal settings. However, it is 'tacit' knowledge that we all possess - the product of our experience - that's really powerful and workplace design has a major role in how effectively it is deployed.

Socialise

Inspiration through interaction

A lot is demanded of knowledge workers nowadays but we all know that non-stop work is counterproductive. People get inspired by talking with others and that's how the social networks that bind teams together and spark innovation are built.

Welcome to our January 2015 Price List.

Resources and information

Please visit our website, www.connection.uk.com for our latest news and information, also to download many useful resources, including:

- PDF brochures and price lists
- Product imagery (high and low resolution)
- Fabric matrix
- 2D and 3D CAD, Revit and pCon files
- Operating instructions
- Product test certificates
- Information in French and German
- Case studies

Visit us

We have two permanent UK showrooms displaying our products and a number of regional 'pop up' spaces to bring Connection to the people.

To arrange a visit to our London Showroom in the heart of Clerkenwell, please ring **0207 253 9877**.

To visit our Huddersfield showroom, please ring **01484 600 100** for an appointment.

Look out for our exciting new products together with updates and additions to our more familiar ranges.

Sustainability & the Environment

In all our core business operations, our aim is to ensure we act ethically and responsibly by adopting best practice within our Corporate Social Responsibility (CSR) Policy and this is embedded into all our practices to the benefit of all our stakeholders.

We consider these stakeholders to be our employees, shareholders, customers, suppliers and the communities within which we operate.

We are committed to the following core values:

- To address the needs and aspirations of our employees, whilst considering their health, safety and promoting a good work/life balance
- To minimise the environmental impact of our operations and enhance the sustainability of our products
- To adopt a good relations strategy with our customers and strive to achieve agreed standards of safety and quality
- To ensure we are honest and fair in all our dealings with our suppliers and aim to procure all our goods and services in an ethical manner
- To support our communities by being sensitive to their needs, responsible in our operations and through the adoption of charitable causes.

Our complete CSR Policy is available to download as a PDF from our website. It incorporates information about the following policies and related standards and accreditations:

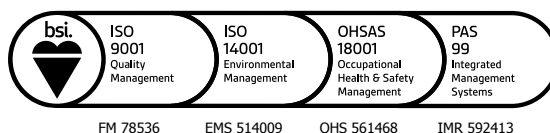

- Environment
- Employees
- Customers
- Suppliers
- Communities
- Health & Safety

You can download the CSR document by going to www.connection.uk.com/environment/

Product information

We consider the impact upon the environment throughout all of our processes, from the initial design of the product, through its manufacture and delivery, right up to disposal when it has reached the end of its useful life. We calculate and hold data on all our products, detailing use of recycled content and recyclability. This information is compliant with the SKA rating criteria.

For further information, including environmental data for specific products, please contact us.

Interior Architecture

Hive

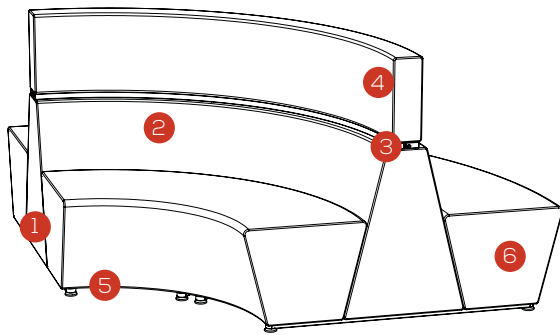

Hive Components

Design by Roger Webb Associates

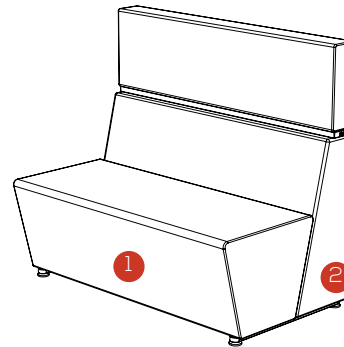

Understanding the components

When ordering your Hive layout, please supply drawings of your configuration and use the part descriptions as below. You only need to specify the colour/finish of the spacers and legs. Connection will calculate the quantity and sizes needed for your layout.

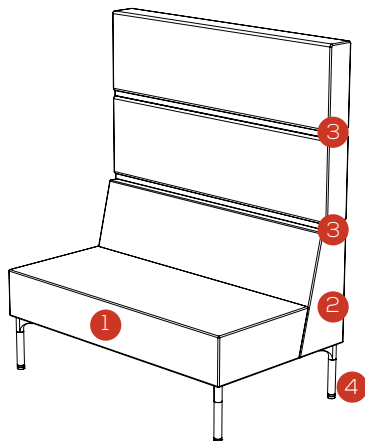

- 1. Internal Bench
- 2. Pyramid Back
- 3. Workrail
- 4. Screen
- 5. Foot
- 6. External Bench

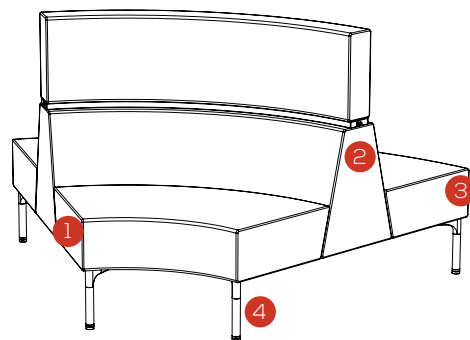

- 1. Bench
- 2. Flat Back

- 1. Bench
- 2. Single Sided Back
- 3. Workrail
- 4. Leg

- 1. Internal Bench
- 2. Double Sided Back
- 3. External Bench
- 4. Leg

Choosing your fabric for Hive and Cubbi

To ensure optimum quality of your finished product, see the list of our recommended fabrics below.

When we receive your order we will check with our suppliers that the chosen fabric is in stock, then advise you of a suitable delivery time.

Please note: Not all of our standard fabrics, vinyls and leather are suitable for all of our products.

Quality and colour finishes on fabric are as per the fabric supplier's standards, therefore any issues relating to this fall outside of Connection's warranty and quality measurements.

Where a customer is supplying their own fabric, and the fabric does not appear in the above list, the following shall apply:

- £150 patterning charge to cover creating templates.
- A quantity of fabric must be supplied to Connection to facilitate creating new templates - 5m per soft seating product, 2m per task/meeting product. For larger sofas a greater quantity may be required. This fabric will be used in the templating/design process.
- Once the fabric is approved, the order will be processed on standard lead time (starting from the date of approval).
- In the event that the fabric is deemed unsuitable for the requested product, the patterning charge will be refunded.

Hive Power

Power module positions

When ordering power and or data for you Hive configuration, please see the diagram below which details the positions at which this can be placed on the individual unit. Each number relates to a position on the unit where it can be applied, there is no limit on the number of positions that can be taken in one unit.

Hive power module positions

Number	Position
1	Inner Bench Left
2	Inner Bench Centre
3	Inner Bench Right
4	Outer Bench Left
5	Outer Bench Centre
6	Outer Bench Right
7	Centre Inner First Screen
8	Centre Outer First Screen
9	Centre Inner Second Screen
10	Centre Outer Second Screen
11	Centre Inner Third Screen
12	Centre Outer Third Screen

Hive integrated work surface power module positions

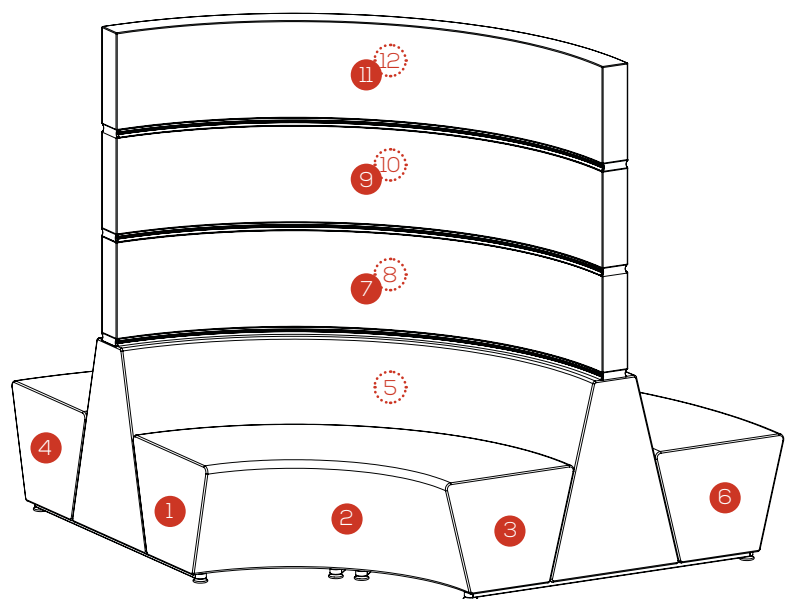

Number	Position
13	Fan table front of support arm
14	Rotating table front of support arm
15	POD work surface front of support arm
16	Booth work surface centre of top

Hive integrated work surface power module positions

Number	Position
17	Centre of table

The numbering of the diagram is based from looking at the unit from the front facing internal side. The numbers with dotted lines indicate positions that are not visible from the front internal side. The diagram shows a curved section with both internal and external benches, three screens high. The same numbering system can be used on any Hive configuration.

When ordering power options on Hive, please use the numbering system to describe the fitted position of your chosen power modules.

Hive

Example Configurations

Design by Roger Webb Associates

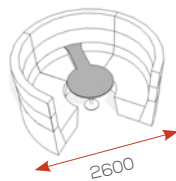

90° POD

Modules

3 x SHF9G, 1 x THV12

Group 3 £12,386

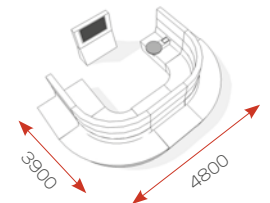

Curved U-Shape with freestanding media screen

Modules

3 x SHVIN, 2 x SHV3V,
1 x SHVIP, 1 x THV10

Group 3 £24,112

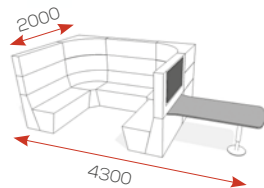

Squared U-Shape with integral media screen

Modules

Horizon Fabric Matrix

Design by Roger Webb Associates

Fabric Options

Choosing your fabric for Horizon

To ensure optimum quality of your finished product, see the list of our recommended fabrics below.

When we receive your order we will check with our suppliers that the chosen fabric is in stock, then advise you of a suitable delivery time.

Please note: Not all of our standard fabrics, vinyls and leather are suitable for all of our products.

Quality and colour finishes on fabric are as per the fabric supplier's standards, therefore any issues relating to this fall outside of Connection's warranty and quality measurements.

Where a customer is supplying their own fabric, and the fabric does not appear in the above list, the following shall apply:

- £150 patterning charge to cover creating templates.
- A quantity of fabric must be supplied to Connection to facilitate creating new templates - 5m per soft seating product, 2m per task/meeting product. For larger sofas a greater quantity may be required. This fabric will be used in the templating/design process.
- Once the fabric is approved, the order will be processed on standard lead time (starting from the date of approval).
- In the event that the fabric is deemed unsuitable for the requested product, the patterning charge will be refundable.

Product information

Tables supplied unassembled without connectors
 25mm MFC top, ABS edging
 Silver frame, black castors
 Tables can nest when folded
 Due to the construction of mobile tables, castors offer no height adjustability, on uneven floor surfaces the use of table connector kits is recommended.
 Whilst every effort is made to ensure parity of colour on our table top finishes, we cannot guarantee an exact match on any timber product.

Certification
 BS4875:part 5: 2001

The Designers

Hilary Birkbeck

Hilary Birkbeck is a furniture and product designer who has been practising in the UK for 30 years. He has a wealth of experience and has provided product solutions for the UK commercial contract markets and domestic retail sectors (Harrods, Heals and John Lewis). He has great understanding of the global supply chain and manufacturing practices. His specialist areas are ergonomics, health and safety and product innovation. Hilary has ongoing activities with US, European and East European clients.

Paul Brooks

Paul Brooks Design has placed itself in the centre of Europe. They have a European approach in the understanding of today's global market. Their belief is to work closely with their client, aiming to analyse their needs in order to deliver a totally appropriate solution – aesthetically, functionally and commercially. They are specialists in the area of office furniture and offer a full design and development package. They have a proven track record which assures informed design, flexibility, common sense and attention to detail.

David Fox Design

David Fox Design is an award winning industrial and product design consultancy. His philosophy and work ethic promote elegance and refinement. His well balanced, innovatively detailed, simplistic forms give his work a timeless aesthetic. David works with a number of clients on furniture and industrial design related projects. In 2007 and 2009 he won the Mixology North Designer of the Year and with the Kalm chair won the FX Award.

High Design Ltd

Bruce High established UK based High Design Ltd. They have designed successful award winning commercial furniture for leading international design-led clients offering an extensive design service through to a finished product. This is underpinned by a pragmatic and hands on approach to design and product development, ensuring close collaboration with clients from initial conceptual ideas through to the final production stage. Their designs aim to enhance and attain the very best aesthetic form, function and quality of finish achievable by the selected materials. Combined with their ability to understand the marketplace and bring about well-conceived concepts into enduring and successful products.

Jones & Partners

Craig Jones Design is a London-based design practice committed to the development of high quality furniture and product design. Established in 2000, the company's aim is to provide a complete and fully resourced service to their clients that produce exciting designs with solid commercial viability. The company collaborates with design-led businesses which share their vision for beautiful and intelligent design solutions. They handle the process from conception through to production and have a proud record dealing with multi-national organisations on projects that have been manufactured and distributed in every corner of the globe.

Ratio Design Associates

Established in 2002, Ratio is an industrial design consultancy working across a diverse range of market sectors from consumer electronics to desking systems. Their experienced team consistently delivers commercially successful, lasting product design solutions that sell worldwide. From concept to manufacture they have a straightforward, intuitive design approach, complemented by rigorous development and engineering expertise.

Roger Webb Associates

Established in 1989, Roger Webb Associates have become synonymous with creating award winning solutions for many of the key brands in the furniture industry within the UK and Europe. One of their key strengths is to go beyond design aesthetics and into designing how pieces are developed and manufactured. Their passion for design is specifically tailored to clients' needs, supporting them to achieve a leading position in their market. The design service is focused through research, in close collaboration with the client to create and develop designs involving prototyping, product engineering and supporting the client by project managing the design into production and to market.

Ordering Guidelines

Pricing

All prices shown in sterling (£) are subject to VAT.

Terms of payment

Nett 30 days from the date of invoice. Connection retains title and ownership of all goods until they have been paid for in full.

Acknowledgement of orders

All orders will be acknowledged. Please check acknowledgements and contact customer services as soon as possible if there are any amendments to your order. Connection cannot be held responsible for customer error or omissions. Once an order acknowledgement has been sent, the order will go into production. Any amendments received after this date may be chargeable.

Ordering procedure

Orders must be placed in writing and include the following:

- Product code (With options e.g. mechanism, arm-type and colour, base type and colour)
- Fabric range and code
- Quantity
- Delivery address
- Desired delivery date

Please make all orders as clear as possible as this will enable us to provide a more efficient delivery.

Delivery lead times

Lead times may vary due to the fabrics selected on the product and/or component requirements. Once your order is received Connection will acknowledge the order with a confirmed week ending delivery date. In the event that our lead time does not meet your requirements, please contact our customer services who will investigate the possibility of rescheduling the items on your order to meet your expectations.

Sample chairs

Standard sample requests are delivered free of charge as part of our service. We would request these are returned to us in good condition within a 30 day period. Special requests other than standard will not be deemed as sale or return and will be treated as an order.

Specification

All dimensions and weights are approximate; whilst every care is taken to ensure their accuracy, Connection cannot be held responsible for errors. Connection reserve the right to make, without notice, any changes to materials, specifications or design of the products which it considers to be reasonable or desirable. Such changes shall not affect the validity of the contract. Connection reserves the right to amend or change the pricing structure within this publication. Our website has our full policies on guarantee, delivery, continuity of supply and our customer service charter.

Fabric Specification

All products manufactured by Connection are upholstered and assembled to the highest standard. However, due to the characteristics and performance of certain fabrics the final appearance and finish on the product may be adversely affected by the fabric specified. Where a material is specified for a product which may have properties that do not meet the necessary requirements, our customer service team will contact you, advising you of any issues. If you decide to proceed with the chosen fabric, then Connection cannot be held responsible for issues relating directly to the material. Whilst every effort is made to ensure parity of colour on our fabric finishes, the company cannot guarantee an exact match on any fabric.

Where a customer is supplying their own fabric, and the fabric does not appear in the Connection fabric matrix the following shall apply:

- £150 patterning charge to cover creating templates.
- A quantity of fabric must be supplied to Connection to facilitate creating new templates - 5m per soft seating product, 2m per task/meeting product. For larger sofas a greater quantity may be required. This fabric will be used in the templating/design process.
- Once the fabric is approved, the order will be processed on standard lead time (starting from the date of approval).
- In the event that the fabric is deemed unsuitable for the requested product, the patterning charge will be refundable.

Delivery

Delivery Schedules

All standard Connection deliveries are made on tailgated vehicles to the designated warehouse of the customer. The standard delivery service operates Monday to Friday, with deliveries to a customer's warehouse between 7am and 7pm.

Connection delivers to mainland UK post codes on a fortnightly schedule with the majority of areas delivered weekly at our discretion. On receipt of your official purchase order, an order acknowledgement will be returned to you detailing the week ending your delivery will be made. Our Customer Services team will contact you between 24 and 48 hours prior to book the delivery in.

Small order charges

For a customer warehouse delivery, where the net order value is below £500, a charge of £50 will be applied. All small order deliveries will be made in line with our scheduled tailgate delivery.

Direct Deliveries

Where requested, deliveries can be made direct to site. For specific deliveries with a net order value between £5,000 and £10,000 there will be no delivery charge providing the delivery is made in line with our scheduled tailgate delivery.

For all specific deliveries where the net order value is below £5,000, a fee of £150 will be applied to all direct delivery requests. The delivery day for such deliveries will be in line with our scheduled tailgate delivery program.

Requests for a specific delivery date and time can also be facilitated; however additional charges will be made to meet this requirement. Details of the specific costs will depend on the size of delivery and the date required. Full details of these can be obtained through our customer services team.

Large Deliveries

On deliveries where the individual delivery is above £10,000 net order value, then the customer can specify the delivery date and time. These deliveries will not be chargeable, providing the date and time specified is Monday – Friday between 8am and 5pm.

Connection delivers products on vehicle types most suited to the size and specification of the products being delivered. Where the customer places restrictions on the type and size of vehicle used, additional charges will be applied to the delivery to cover such requests.

Installation

All our deliveries are based on a tailgate service, with unloading to the rear of the vehicle. Connection can, with sufficient notice, offer an installation service. This additional service is chargeable and details of the specific charges can be obtained through our customer service team.

Order Postponement

Where a customer advises Connection of a postponement of an order giving a minimum of a week's notice from the scheduled delivery, no charge will be made providing the order is rescheduled for delivery. If the postponement of an order is advised to Connection with less than one week's notice, Connection will raise charges to cover for storage and handling of the products on order. All requests for postponement must be in writing.

Checking the Delivery

All items must be individually counted. Our logistics partner will not accept any signatures marked "UNCHECKED". Please verify the number of items received with the number shown on the delivery document which you are required to sign. You must only sign for the actual number of items received, any discrepancies to the advised quantities must be written on the delivery documentation. Neither our logistics provider nor ourselves will be held responsible for any shortages found after the delivery paperwork has been signed.

Damaged Goods

Any visible damage on delivery must be signed as such on the delivery documentation. If any items should arrive damaged, including water damaged, you must sign the carriers note as "damaged". All damages must be notified to our offices within 48 hours of the delivery. Neither our logistics provider nor ourselves can accept responsibility if we are informed after this time period.

Goods for Collection

Only goods that have been pre-advised for collection will be accepted by our delivery driver. All goods that are to be returned to Connection must be advised to our Customer Service Team 72 hours before the date of your standard delivery.

Warranty Statement

The company's warranty and guarantee are valid only on standard products supplied in mainland UK and given subject to the product being used for the purpose for which they are designed, with the exception of fair "wear and tear".

All standard products supplied are guaranteed against defective components and workmanship from the date of manufacture, the details of which are as follows:

- 1 Structural and moving parts, under fit for purpose use for a period of five years.
- 2 Upholstery:
 - foam, under fit for purpose use and service for a period of five years;
 - fabric, all material used is covered by the fabric manufacturers own warranty/guarantees.
- 3 Product in twenty four hour use will be limited to a twelve month warranty.

The warranty is valid only where:

- 1 Repairs are carried out by a third party that has been appointed directly by Connection Seating Ltd.
- 2 The goods have been paid for in full.
- 3 The product has been used for the purpose for which it has been designed and has not been subject to misuse, unauthorised repair, replacement, modification or alteration in any way.

Export Information

Connection is a UK based company, with a brand that has developed overseas. On our website there is a section under Export translated into French and German. These pages provide more in depth information on our export procedures and give details of our representatives in countries outside the UK.

Here are brief guidelines on ordering for export:

- All goods are exempt from UK VAT.
- The customer is responsible for all import tax duties unless agreed in writing by Connection.
- Payment terms are nett 30 days from date of invoice. Standard export terms are pro forma payment prior to despatch unless otherwise agreed to by Connection in writing.
- Our ordering processes and acknowledgements are standard for exported goods and UK goods.
- Prices will be quoted in Sterling and Euros and are based on ex factory unless otherwise agreed by Connection in writing.

Warranty Guidelines

The standard warranty applies for product shipped outside the UK. Warranty claims for product outside the UK must be handled by the original supplying Connection customer who will be required to adhere to the following procedure:

- Complete a Connection "non-conformance" form. This must be returned to the company's Head Office in Huddersfield, UK, with all requested details, together with supporting imagery. The purpose of this is for the company to be able to respond promptly and effectively.
- Upon receipt of completed documentation, we will respond within 72 hours with an agreed action plan.
- Subject to the claim being valid, Connection will arrange to supply replacement parts delivered to the nearest port of entry. We will not cover sequential loss and it will be the responsibility of the supplying customer to effect the repair.
- Any agreed amendments to the above will be required to be confirmed in writing between all parties concerned.

Delivery

Connection utilise state of the art logistic systems to facilitate deliveries to our customer's premises. Our Customer Service team will advise of an estimated time of arrival once the goods have been collected from Connection for shipment. A confirmed delivery date can only be given once all local import duties have been paid.

Deliveries to EU countries

Connection predominately offer ex works pricing on all export orders, however where required we can facilitate the arrangement of transport. Where a customer's delivery is required to be arranged by Connection, the following charges are applicable.

Small Order Charges

For a customer warehouse delivery, where the net order value is below £1500, a charge of £150 will be applied.

Standard Order Delivery Charges

Where requested, Connection can arrange deliveries direct to site. Prices for these are specific to a customer request, and as such will be priced on application. Connection cannot arrange installation for any Export deliveries, this needs to be arranged locally by the customer.

Order Postponement

Where a customer advises Connection of a postponement of an order giving a minimum of one weeks notice from the scheduled collection/delivery, no charge will be made providing the order is rescheduled for collection/delivery.

If the postponement of an order is advised to Connection with less than one weeks notice, Connection will raise charges to cover for storage and handling of the products on order. All requests for postponement must be in writing.

Connection package products for export customers based on them being loaded directly onto a designated container. Where the product is to be shipped through a groupage network, then Connection have designed and developed additional "Sea Worthy" packaging which is strongly recommended to be used on all such shipments. This packaging does have an additional charge applied to the shipment, details of which can be obtained through our customer services team. If customers do not request this additional packaging for groupage items as recommended, then Connection cannot be held responsible for any damages caused through the transportation of the product.

V indicates vinyl

When we receive your order we will check with our suppliers that the chosen fabric is in stock, then advise you of a suitable delivery time.

Please note: Not all of our standard fabrics, vinyls and leather are suitable for all of our products.

Quality and colour finishes on fabric are as per the fabric supplier's standards, therefore any issues relating to this fall outside of Connection's warranty and quality measurements.

Where a customer is supplying their own fabric, and the fabric does not appear in the above list, the following shall apply:

- £150 patterning charge to cover creating templates.
- A quantity of fabric must be supplied to Connection to facilitate creating new templates - 5m per soft seating product, 2m per task/meeting product. For larger sofas a greater quantity may be required. This fabric will be used in the templating/design process.
- Once the fabric is approved, the order will be processed on standard lead time (starting from the date of approval).
- In the event that the fabric is deemed unsuitable for the requested product, the patterning charge will be refundable.
