CURVED STYLE ROOF CANOPY

Our Curved roof canopies are suitable for a wide range of uses including covered free-flow play areas playground shelters, waiting areas, covered walkways, outside dining areas and sheltered locker areas. They are ideal for protecting customers, employees, or pupils from the sun and rain, transforming previously unused areas into comfortable and welcoming areas that can be utilised all year round, whatever the weather.

Most canopies are individually made to suit the site we are therefore not restricted to standard module sizes and can fit the structure to the space available maximising the covered area for the funds available.

The canopy is fabricated from mild steel and is supplied hot dipped galvanised and polyester powder coated to a RAL colour of your choice, for extra durability, but can also be supplied hot dipped galvanised only.

Free no obligation quotation

Should you require any further information on colours or other general enquiries please call the sales line or send us a quick email, or visit the website.
