## DIDCOT CYCLE CANOPY

The Didcot Cycle Canopy is a popular shelter thanks to its contemporary good looks and versatility. Available as a stand-alone standard 3850mm version that holds up to 10 bikes or because of its modular design it can hold as many bikes as you require. It's simple to extend if you decided at a later date that you require more space by using one of our bolt on extension units.

The shelter is fabricated from mild steel and is supplied hot dipped galvanised, but can also be polyester powder coated to RAL colour of your choice, or a combination of both for extra durability.

### *Free no obligation quotation*

Should you require any further information on colours or other general enquiries please call the sales line or send us a quick email, or visit the website.
