**Legacy**  
**The 70mm option**

**Heritage**  
**Vertical Sliders**

## It looks and feels like timber

The likeness to timber is accentuated by the arrised joints mimicking traditional joinery and shows the attention to detail in the manufacture of RESIDENCE 9

The sashes have the option of having joints that look like quality joinery

RESIDENCE NINE

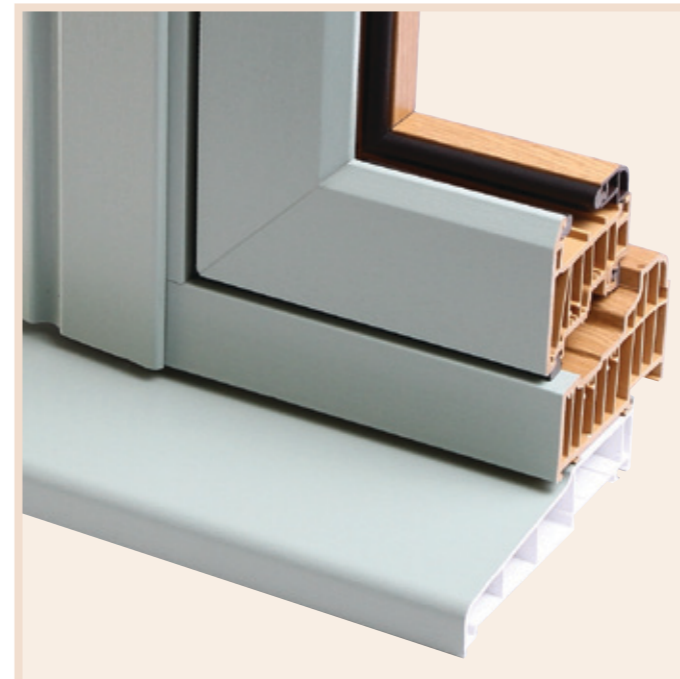

## The latest in innovative PVCU window design

In old or new properties, RESIDENCE 9 provides the perfect solution.

With its 100mm, 9 chamber profile and remarkable resemblance to timber or painted timber, coupled to exceptional thermal efficiency and security, the overall feel good and look good factor is ensured.

RESIDENCE 9, the real alternative to timber.

## Personalise with dual or single finish

To provide an even more personalised effect, a combination of colour and timber effect internally and externally can be achieved

Unlike most other PVCU systems the woodgrain or painted timber effect is sustained throughout the frame

## "A" Energy Rated

RESIDENCE 9 windows manufactured with the latest energy efficient products providing greater thermal efficiency and comfort

## Authentic timber look with modern technology

Is it a timber window with a PVCU window board or is it a LEGACY window with a timber window board?

It is a LEGACY window with a timber window board.

Timber and PVCU in harmony – who would have believed it!

## Seeing is believing

This could be traditional timber joinery, in fact it is LEGACY with arched joints and sculptured detail

LEGACY external chamfer finish designed to replicate the traditional putty line of a timber window

# Legacy

## NEW CONCEPT Traditional Idea

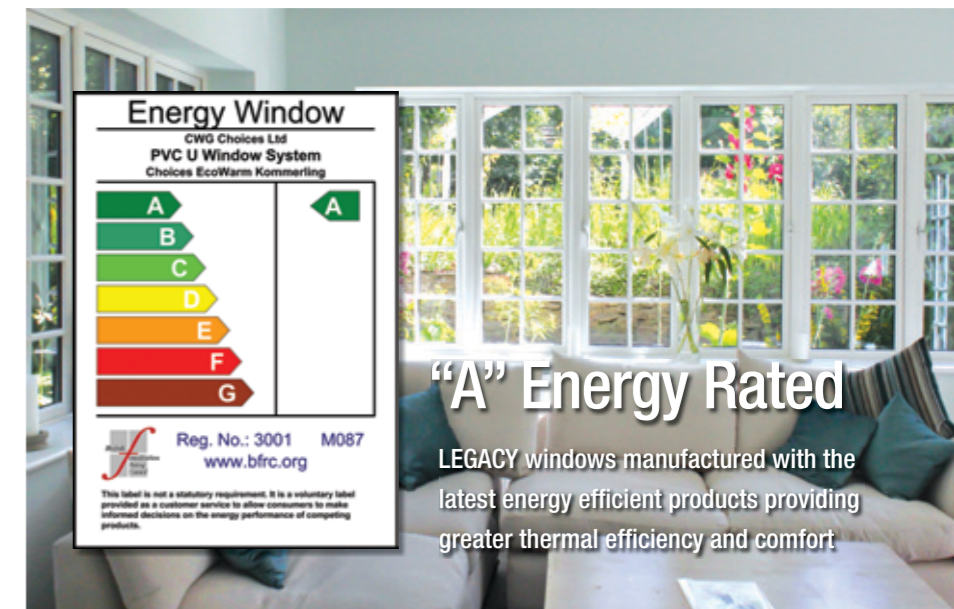

LEGACY - the alternative to timber due to its authentic woodgrain finish.

With the 70mm, 5 chambered profile giving outstanding performance in terms of high thermal efficiency, high security and low maintenance (no more painting or staining) the perfect living environment is assured.

When you choose LEGACY, you are enhancing your property with style.

HERITAGE  
VERTICAL  
SLIDING SASH WINDOWS

Modern technology with  
"Heritage" in mind

Choices Heritage vertical sliding sash windows are energy efficient with high performance and security.

They are easy to slide open and with both panes tilting inwards, for ease of cleaning.

In any property, the authentic detailing of the sash horns, a deep bottom rail, slim interlock and traditional chamfer on the sashes make it almost indistinguishable from a timber alternative, yet they provide all the inherent advantages of modern materials.
