Velo-Store Hanger

Introducing the Updated Velo-Store Hanger: A Sustainable Solution for Urban Living

The new 6 bike Velo-Store addresses the growing demand for sustainable transportation and high-security bike storage. The updated Velo-Store provides a convenient, space-efficient solution, making it ideal for residential developments of all sizes. By offering secure and organized bike storage, it encourages the use of bicycles while maximizing available space all situations.

Key features of the Velo-Store Hanger

Small Footprint

The internal racks are off set high and low meaning 6 bikes can be parked in a small space, allowing the maximum use of available space.

Secure Storage

The Velo-Store's concealed 2-point locking system, anti-lever frame supports, and individual multi point locking bars provide strong security for users bikes.

Scalability

The Velo-Store's modular design lets developers easily customize configurations for any size, from small apartment complexes to large residential communities.

Ease of Installation

The Velo-Store can be easily installed on any hard flat level surface without the need for groundworks, providing flexibility and convenience .
