

HORIZONTAL BIKE LOCKER

Product Name: Horizontal Bike Locker

Product Description:

The bike locker is built from thick, weather proof steel panels with large single door access, suitable for both adult and children's bikes. Fitted with a hasp suitable for your own padlock. Inside a guide rail holds your bike upright and acts as a 2nd locking point for increased security. Finally, a set of hooks are included so you can store your helmet and bag with your bike.

As with all our products these all metal Bike Lockers are made from strong, thick, galvanised (weather proof) steel. At 99kg in weight (that's over 15 stone) this bike locker is a substantial unit. Supplied with a 10 Year Warranty – all of our units are built to last.

Fitted with a hasp suitable for padlocks – ideal for multi person or public use.

Door handing can be changed by the user to suit your location. *specify at time of order

Integral wheel guide for holding your bike in place – Also doubles as an additional lock point.

This unit is supplied with two kit hooks for hanging helmets and clothes with your bike.

Units can be bolted down to the ground using the supplied securing bolts.

Self assembly using the easy to follow illustrated instructions.

Please note unless specified at time of order the bike locker door will be right handed.
