

Product Name: Secure Bike Hanger

Product Description

Our new secure bike hanger is ideal for bike storage in areas with restricted space. Hanger accepts any type of cycle, even ones with mudguards. Includes a fixed loop to secure a cycle frame with a D-lock and/or chain. The security loops in the wheel holder and the central anchor, allow for a long D-lock/security cable/chain to be looped around various parts of the cycle and secured in multiple locations, or allows for multiple separate cables to be used to increase the time taken by a potential thief. The hanger can be used in mass storage situations and can be staggered in height to maximise use of space.

Delivery time: typically 10 working days up to quantities of 30. For quantities of 30+ typically 14 working days.

Additional Information

Supplied with tamper resistant fixings.

Note: The user must bear the whole weight of the bike when lifting onto the bike wall hanger.
