HIGH SECURITY

Our are high security mailboxes have been design to fight against mail theft which is more common that we think in residential building. All the following mailboxes protect residents against mail-fishing. The fortress models are for internal use only and are design with a slim mail aperture. The shark featuring a 2 points locking mechanism is fitted with an anti-phising device. The DAD009 is our ultimate solution Secured by Design certified with reinforced steel, a patented locking mechanism and an high security lock.
