

**DESSO**

The Floor is Yours

**CARPETECTURE®**  
Pure Lines

The Pure Lines theme is architectural structure. It creates a unity of horizontal and vertical faces, and allows the eye to follow a rhythm.

Simplicity and purpose blend to create a strong link between man's creation and the texture that follows the rhythm of nature.

Pure Lines is inspired by the linear effect.

Pure Lines celebrates the repeated familiarity of movement in nature:  
fields of corn, forests of trees, rays of sunshine.

For this reason the CARPETECTURE® Pure Lines collection uses natural toned colours,  
structure and volume.

## Scape

This carpet tile presents a landscape of contours and levels, creating a feel of craftsmanship and natural effect. It is inspired by the tactile textures of leaves, bringing to mind the natural elements in the building. Scape colours are those of nature, with autumn's greens and browns and the cold blues of winter. Scape has repetition in its pattern but also seems hand-made, as it offers self-expression and individuality of nature – constant, yet never identical.

 Monolithic/ Checkerboard/ Ashlar/ Brick

## Libra Lines

These tufted loop pile carpet tiles are in warm country tones. The range of colours includes a combination of the ochre and russet of lichen. Continuity and rhythm animate the floor space to create a lively yet reliable environment.

 24 colours  
 Monolithic/ Checkerboard

## Libra Grooves

With a suggestion of light and shade on building strata, Libra Grooves embraces the natural lines of slate. Its colours initiate hints of crimsons and reds, so the effect is warm and dynamic. The floor space is personable, smart and dependable.

## Manhattan

The personality of this stunning, luxurious loop pile carpet tile is animated and vibrant. It is inspired by pure wood elements – piles of sawn branches angled in one direction, leaves swept to one side, chopped wood stacked high and low. The eye is drawn through the surface, giving warmth and comfort.

## Trax

Trax uses the tactile nature of building surfaces to create a friendly connection to the human spirit. Other materials such as clay or chalk are also at play, underlining the natural quality of the design. Repetitive lines in the purest form, each representing a natural flow.

## Tree

The strong tactile character of bark and grain in wood is the underlying influence for this subtle, warm tile. Light tones and rich texture combine to generate a spacious feel of light, creating perspective and comfort.

## Reclaim Ribs

Eco-effective processes and understated design blend to form an individual identity within a subtle rib. Reclaim colours evoke the vertical lines of oriental bamboo and the stark silhouettes of brick wall, presenting a cool, modern feel in the working environment. Reclaim has also received a stamp from an independent German test institute, GUT, to certify that this product effectively reduces fine dust in indoor air.

## About DESSO

DESSO has been manufacturing and marketing carpet for almost 80 years, and during that time it has earned a fine reputation as a reliable partner and creative designer. Today, it has two factories in Europe and specialist customer service centres throughout Europe, as well as in America, Asia, Africa, the Middle East and Australasia. CARPETECTURE® is a powerful example of the DESSO commitment to creative carpet design and its dedication to meet the needs of architects, interior designers, building owners, and end users. DESSO products can be found in offices, public buildings, banks, schools, universities, retail units, and care centres. Among its many highly valued customers are distinguished companies such as HSBC, Deutsche Bank, BNP Paribas, Allianz, Starwood Hotels, Marriott Hotels, Regus, KLM, Virgin Atlantic and many more.

## Corporate Responsibility/ Cradle to Cradle

DESSO has been taking measures to safeguard the environment for many years – long before it became popular to do so. With an ISO 14001 environmental quality accreditation, regular on-site checks by independent institutes ensure the best possible environmental production methods. In addition, every DESSO carpet and carpet tile carries a unique GUT test number to indicate it has passed GUT testing for contamination and emission. DESSO has initiatives for the re-use of carpet tiles to ease the burden on landfill, and an ongoing research programme for environmental awareness and recycling covers both product and packaging. DESSO continuously seeks to improve the environmental attributes of its products through product design development programmes while its manufacturing plants evaluate energy use and strive towards continuous reduction in waste and pollution.
