# case study

rainscreen cladding  
through fix - TFS1

**Sector**  
Residential

**Project**  
Bridgewater Place, Leeds

**Project value**  
£150,000

**Architect**  
Aedas

**Material and finish**  
2mm and 3mm J57S grade  
aluminium anodised natural silver  
to BS3987 25-35 microns.

**Solution**

- Cladding panels.
- Purpose made fascias and soffits clad the two large canopies on this project.
- Window surround pressings - Folding our aluminium to create a mock beam and other feature beams that were part of the design of this building.

**Benefits**

- High quality, low maintenance products that will provide a long term facade solution.
- Fully integrated solution including cladding and canopies, along with bespoke products such as feature beams.

# Rainscreen cladding through fix

## Support system

- Mechanical through fix system is suitable for new builds, or for overcladding an existing building as part of a refurbishment
- Market-leading Hilti fixing system
- Aluminium carrier system for long term performance
- Easy installation

## Sustainability and the Green Guide

Eltherington is committed to sustainable manufacturing leadership in all areas of its business, including recycling, reduction of waste and saving energy.

Eltherington rainscreen cladding can achieve an 'A' rating as defined in the BRE Green Guide to Specification. Due to their lightweight nature, framed structures generally score better than their masonry counterparts. A-ratings can be achieved using all conventional cladding materials from Eltherington.

## Showroom

Eltherington has a large showroom at our manufacturing site in Hull, East Yorkshire, showcasing all of our architectural solutions. To arrange a visit, please call us on 01482 320336.

## Design assistance

Our team can assist you in all aspects of regulatory compliance covering fire safety, condensation and ventilation.

Along with our standard range of rainscreen cladding we can manufacture to your exact designs. We offer a full installer support programme.

## Our commitment

Eltherington is at the forefront of innovation and performance in the rainscreen cladding sector. This gives customers confidence in our products, allowing them to realise their vision of creating buildings where people want to live and work.

Eltherington rainscreen cladding solutions have been independently tested and accredited to the specific requirements of CWCT.

The Centre for Window and Cladding Technology (CWCT) is the leading provider of information in the area of building envelopes and glazing. The CWCT establishes industry standards and provides guidance to its members.

Full NBS specifications are available for all Eltherington rainscreen cladding solutions. We have an experienced technical team that can assist you in putting together designs and detailed specifications.

Eltherington offers RIBA-assessed, high-quality CPD seminars at your office or regional centres around the UK. Please contact our customer services department for more information.
