## Algae Remover

---

### TECHNICAL DATA SHEET

#### EFFECTIVE REMOVAL OF MOSS, LICHENS, ALGAE & FUNGUS

##### PRODUCT DESCRIPTION

- Epicuro Algae Remover eliminates moss, lichen, algae and fungus from all type of surfaces; concrete, brick, sandstone, limestone, marble, granite, clay tiles, slate tiles, render, plaster, timber, plastic, paintwork, GRC, GRP, plastic and glass.
- Epicuro Algae Remover works fast and is effective for up to 12 months.
- Epicuro Algae Remover is recommended for treating walls, roofs, balconies, monuments, fountains, basins, monuments, fences, terraces, patio blocks, boat hulls.
- Epicuro Algae Remover does NOT form a film or alter the natural colour features of the surface to which it is applied. Other products form films and turn the surface yellow.
- Epicuro Algae Remover is a time saving and economical product, because less time is spent in moss treatment work, and correspondingly less product used.
- Epicuro Algae Remover is a full strength industrial grade product that can be diluted to suit intensity of bio contamination.

##### ADVANTAGES & CHARACTERISTICS

- Easy to use by brush or hand operated spray.
- Strong ability to penetrate.
- Fast acting with visual effect. (within 24 hours)

##### TECHNICAL DATA

- |                                  |   |
|----------------------------------|---|
| • Physical state at 20°C: Liquid | • Density :1.0 gm/cc                            |
| • Colour: Off - white            | • Boiling point (° C):100                       |
| • Odour: Caustic                 | • Solubility in water (vol/vol) :Highly soluble |
| • pH: Approx. 7                  | • Flash point (°C): >93                         |

## INSTRUCTIONS FOR USE

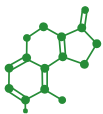

- Epicuro Algae Remover is ready to use, straight from the container.
- Apply by brush or hand operated spray unit.
- Apply in dry weather, when the surface is dry or damp.
- Apply until the surface is completely saturated with the product.
- Do not apply the product if rain is imminent.
- Avoid spraying surrounding grass and vegetation that is not intended for treatment.
- Clean tools and equipment with water immediately after use.

## HEALTH & SAFETY

- ALWAYS KEEP CHEMICALS OUT OF REACH OF CHILDREN AND ANIMALS
- Eye protection: Wear protective goggles, especially if there is a risk of splashing.
- If swallowed: Do not induce vomiting. Contact a doctor or a specialist.
- Respiratory protection: Under normal outdoor conditions or use where adequate ventilation is available, no special respiratory protection equipment is needed.
- Hand protection: Wear gloves.
- Skin protection: Avoid contact with skin. Rinse immediately and thoroughly in clean water if contacting with product.

based

### CHEMICAL PROPERTIES

See MSDS for product

### PACKAGING

20 litre containers.

### STORAGE

Store away from frost & heat in a dry place, between 5°C & 30°C.

### SHELF LIFE

Provided the container is kept closed whilst not in use, and kept within the recommended storage temperature, the storage life is 18 months.

### PERFORMANCE

Cleaning rates depend on surface type, nature of bio-contamination and its intensity. The product is normally effective after a few hours. Benefit may last up to 12 months or more.

### **CONSUMPTION**

Consumption depends on the heaviness of the soiling. The following values are guidelines only: from 3-6 m<sup>2</sup> / litre.

### **EPICURO APPROVED APPLICATOR SCHEME**

Training in product 'technology and application' is provided by Epicuro Ltd.

### **RECOMMENDATIONS**

To obtain the best results, the product container should be shaken well before use. Only use when the temperature of the surface to be treated is greater than 5°C. Take care not to spray onto surrounding vegetation.

Do not apply if raining or if rain is expected.

Wear suitable PPE (see product MSDS)
