# Sector proven Healthcare panelling solution.

At Excelsior we offer a number of sector related pre-hung duct panel solutions to meet all your healthcare requirements, including hospitals, clinical surgeries and acute facilities. Further more we are able to offer the provision of pre-plumbed sanitary ware if desired.

## from creation to installation... you can rest assured

Excelsior have undertaken the manufacture, supply and installation of bespoke washroom products in all washroom environments since 1978. We have a wide selection of safe, attractive and reliable systems to suit all applications, from nursery schools right through to leisure centres and hospitals.

All levels of durability are catered for to meet the end users commercial constraints, combining innovation with practicality.

All our panel sets can be manufactured to suit sanitaryware and location requirements. Panel widths are variable to suit client requirements and are available in either solid grade laminate (SGL) or either square edged or postformed high pressure laminate (HPL).

The panels are set onto a wood frame as standard, however galvanised metal frames are available upon request with lead times generally 3 weeks for wood frames and 4-5 weeks for galvanised metal frames (from approval of drawings and receipt of all information). All panel sets are also available with hinged and lockable top panels.

Installation by Excelsior is strongly recommended but not essential as a full set of fixing instructions and technical information is provided with the system.

### Recommended Sectors:

- Education
- Leisure
- Transport
- Healthcare

### Mariner 12mm SGL Range Duct Panelling (Wood Frame)

#### Specifications

##### Full Height Panel Specification:

- 12mm compact solid grade laminate
