

Resysta® Decking

Resysta® rightly claim that 'some miracles happen'. Resysta® is a cutting edge material development that combines the pleasing aesthetic qualities of hardwood whilst overcoming the inherent problems of timber. Resysta® does not rot and is resistant to insect and fungal decay. Resysta® does not fade to grey in sunlight, nor will it swell or shrink in water, whether fresh, salt or chlorinated. Resysta® is very stable, even in the harshest of climates and has admirable ecological credentials due to its ingredients, which are rice husks, mineral oil and rock salt. Resysta® can even be recycled.

All of these qualities produce an exceptionally low maintenance material. Whether left raw, lacquered with Resysta® Glaze or painted with Resysta® Colour Concept, no loss of colour occurs except for an initial minor settling after installation. Resysta® is an extruded product which is available in a range of profiles, including claddings, facades and sun and rain screening.

As if these qualities were not enough, Resysta® tests to B2(E) fire rating, has a class 1 durability rating (the highest resistance to wood destructive fungi) and has a Brinell hardness value of 81.1 N/mm². Resysta® can be drilled, sawn, mitred, sanded and fixed with ordinary timber tools.

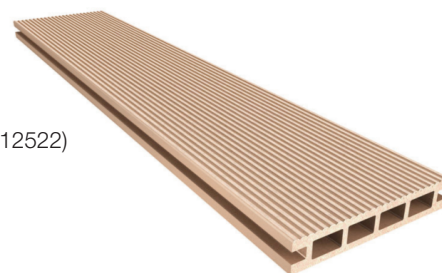

Resysta® has been accredited with an Environmental Product Declaration (EPD) to EN15804 which reinforces the product's excellent environmental story.

To see the EPD Report, please visit www.falconpp.co.uk/products/resysta and click on the link below the EPD logo.

For further information on Resysta's range of products or advice on how Resysta® can be used in your project, please contact **Simon Heron** on **07884 736572** or go to www.falconpp.co.uk/products/resysta

Grooved Decking

Dimension
22x125mm (DKG12522)

Length
3.0, 4.0 and 5.0m

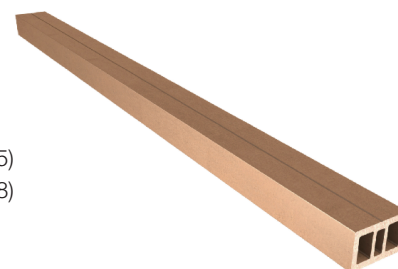

Smooth Decking

Dimension
20x140mm (DKG14020)
20x200mm (DKG20020)

Length
3.0, 4.0 and 5.0m

Runner

Dimension
25x38mm (RUH3825)
38x70mm (RUH7038)

Length
3.0, 4.0 and 5.0m
