

Glide

Summary

Finding the perfect cinema viewing position is simple, silent and effortless thanks to the Glide's state-of-the-art sliding system. With a gentle recline, the base slides forward, providing total back support throughout even the longest screenings.

As today's audiences continue to demand more from the movie experience, cinemas can't afford to just sit still. That's why we created the all new Glide cinema seat.

.And once it's vacated, the Glide will automatically return to its original position, ensuring the seat-way meets all necessary fire and building codes.
