Phillip Morant School

Fordingbridge manufactures all steel work in our own workshop on the site of our head office in Arundel, West Sussex.

For all products used in construction and all fabricated structural steelwork delivered to site a new legislation under the Construction Products Regulation (CPR) requires all products to be CE marked.

Paint and Colour

Fordingbridge can colour steel work with polyester powder coating, grit blasted with 1 coat of hot zinc spray and 1 coat of polyester. Our paint work has a 10 year warranty to first maintenance. We work with RAL colour specification to give the largest choice available to our clients. These colours include but are not limited to the following popular choices:
