

# FOX MARBLE

IS PROUD TO  
INTRODUCE THE  
NATURAL STONE  
FROM KOSOVO  
AND SOUTHEAST  
EUROPE TO THE  
WORLD MARKET

Kosovo and Southeast Europe represent a new world of natural stone – a region rich in a wide range of untouched resources.

As the only operator in Kosovo, we are exclusively positioned to supply manufacturers, processing companies, specifiers and architects with a variety of stunning and unique materials.

## QUARRIES

Fox Marble's six quarries located in Kosovo hold a combined volume of over 300 million cubic metres of premium quality marble and decorative stone, currently being managed and developed by our skilled Carrara-trained workforce.

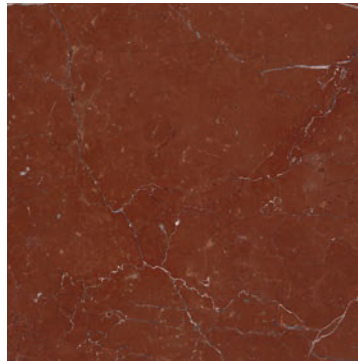

# MATERIALS

## Breccia Paradisea

Source Quarry: Syrigane

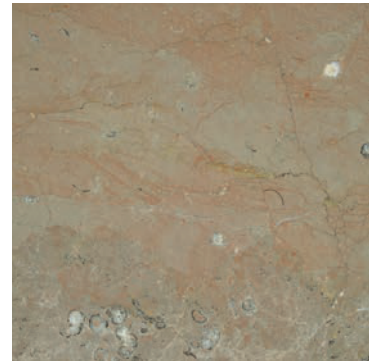

Breccia is a popular material with a rich history in architecture and the arts. This playful and charming example includes many colours and highlights the true versatility of marble.

## Rosso Cait

Source Quarry: Rahovec

This is a bold and exotic material. The red marbles are particularly popular in the flamboyant and historically rich developments of the middle eastern market.

## Flora

Source Quarry: Rahovec

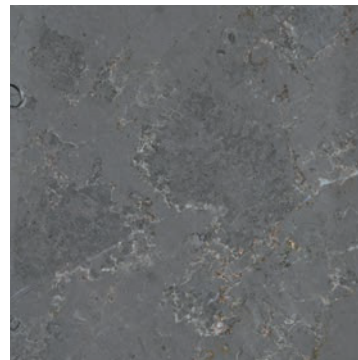

The combination of the classic grey tones and the extravagance of the red that infuses this marble make it a great choice for those who are looking for something a little bit different.

## Bianco Illirico

Source Quarry: Malesheva

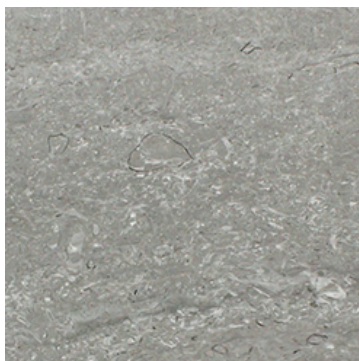

This is a classic and bright marble. It gives a clean, stylish finish, combining all the historical opulence of marble with a modern freshness.

## Grigio Argento

Source Quarry: Cervenilla

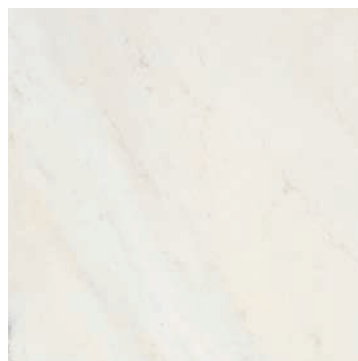

This striking marble is an excellent choice for a statement finish. It has unusual cool, blueish tones and an impressive, dense finish.

## Illirico Selene

Source Quarry: Malesheva

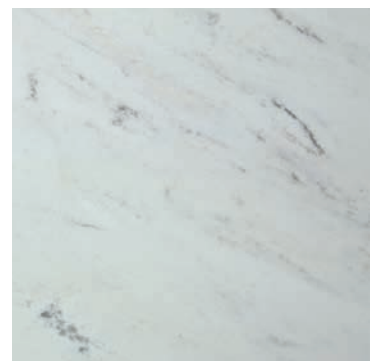

Illirico Selene's deep silver tones, with 'dragon's breath' swirling just beneath the surface, are a restrained yet elegant finishing touch.

## Sivec - various grades

Source Quarry: Prilep (Macedonia)

Sivec boast a homogenous form and a microgranular structure which generate a high demand for Sivec marble on the international market. The colour varies from pure white to white with dappled streaks of soft grey, depending on the grade of an individual block or slab.

# CONTACT INFO

We are able to discuss your particular requirements and to provide more detailed information on request.
