

Starter Kits

Gallagher's access control and intruder alarm system is available in starter kit format. In one easy purchase you have everything you need to ensure effective access control. Gallagher's Starter Kits include all of the Gallagher hardware and software to get a small site up and running with access and alarms functionality.

Features and benefits:

- Cost effective solution for businesses that require excellence in security on an economic scale.
- Easy ordering – only one part number needs selecting to install an access control solution on -site
- No limits on expansion – sites installing a Controller 6000 Starter Kit can expand their system with standard Controller 6000's as required (only one Starter Kit Controller is permitted per network system).
- Quicker hardware installation – Gallagher mounts and pre-wires hardware within the Starter Kit Cabinet, saving installation time and money
- Easy software configuration – the Starter Kits have pre-configured templates available during Command Centre installation, leaving minimal software configuration required
- The included T20 Alarms Terminal makes managing alarms simple and extends operator control to wherever it is required

What is in the kit?

The standard Starter Kit (C302400) allows alarms to be sent to remote monitoring stations via IP Alarms Contact ID, with an optional PSTN dialer variant (C302401) available for an alternative alarms routing path.

Starter Kit includes:

- Controller 6000, Starter Kit Variant
- Power Supply, 3.5A
- Starter Kit Cabinet
- Fuse & Fire Relay Board
- HBUS 8in Board
- HBUS 8in 4 out Board
- Mounting Plate
- 2x T10 Reader - Mifare, Black
- T20 Alarms Terminal
- Dialer (*Dialer variant only)

Note: Mains power lead and batteries are not included
