

**GLAMOX A10**

Decorative. Flexible. Energy efficient

# Decorative, flexible and energy efficient

Glamox A10 is a very versatile circular luminaire with high light output and a decorative illumination on the ceiling or wall. This decorative luminaire fits very well in applications like corridors, staircases, bathrooms and locker rooms with its easy maintenance and IP44 protection. The luminaire is available in two different sizes, 350 and 440 mm diameter. The focus on energy efficiency, modern light sources and integrated movement detection, makes this a solution for the future. Our smart solution for emergency and batteries does not affect the decorative design. Glamox A10 -functional for several solutions.
