An Overview

This Price List has been designed to be as clear and easy to use as possible, whilst also providing a comprehensive set of information for all of our Desking products. Below is a brief overview on how to use the document, as well as where to find key information.

Page Layout

For ease of use, the page layout in this document is consistent throughout. Images always run from left to right across the page, whilst corresponding product information always runs from top to bottom down the page.

Cable Management

39

Accessories

Universal Cable Riser Kit

UCR/KIT

Comprises 2x 280mm lengths of 3-way self-adhesive trunking, and 2x 3-way cable clamps (and fixing screws). All items attach to inside face of modesty panel. **Please note:** A fully cable-managed corner Desk will require 2 Cable Riser Kits. Not suitable for use with Trapeze A-Frame Desks.

Under-Desk Cable Riser

660042

Vertical Cable Riser Spine. Available in Silver only.

Under-Desk Cable Way

660046

Arched 1340mm Cable Way. Available in Silver only.

Under-Desk Cable Tray and Riser

RACEWAY

Flexible 1600mm Cable Management system. Available in Silver only.

MFC & Frame Paint Options

- * Please specify your Frame Paint Finish from the Desking Finishes page
- ** Please specify your MFC Finish from the Desking Finishes page

Electrical Standards

Know your responsibilities

You've just chosen your new desk, but unless it's correctly configured for power and data services, it's potential for maximum efficiency will not be realised.

Electrical equipment and installations must be designed and tested to ensure their safety, and to comply with statutory regulations – in particular the 'Electricity At Work Regulations'. Relevant British Standards may be used as a means of demonstrating safety and compliance with the regulations. In the case of electrical systems in office and educational furniture, the relevant standard for systems connected to the mains supply by means of a 13A plug is BS 6396:2008.

Whilst acceptable for domestic use, socket blocks purchased from the high street will not comply with BS 6396, which requires that all sockets on the power module must be individually fused. Power modules used in the office should meet all electrical standards set out in BS 6396, as part of the requirements for compliance of the desk electrical system. All power modules supplied by Godfrey Syrett fully comply with current standards and legislation.

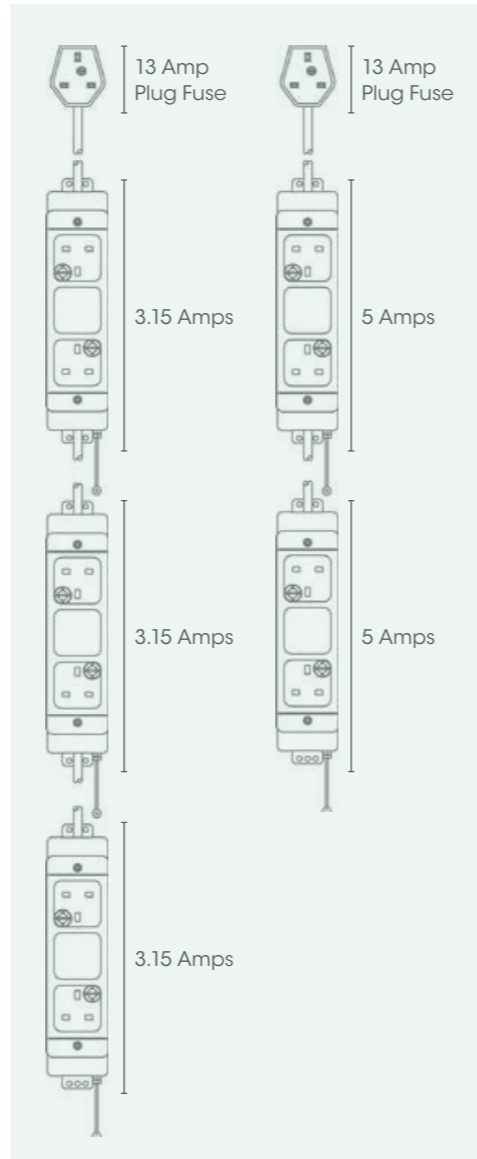

The diagram (right) indicates the maximum number of sockets that may be connected to a single power supply cable, fed from a 13 Amp BS 1363 plug, as well as their relevant fuse ratings.

If your socket block has a 13 Amp plug you can use 4 sockets, each fused at 5 Amp. Alternatively you can also use 6 sockets, each fused at 3.15 Amp. In all circumstances the combined sockets should not exceed 20 Amps. Equipment with ratings in excess of 5 Amp, such as kettles, coffee makers and fans must be provided with their own dedicated power feeds. It is generally acceptable to run these through the workstation cable management system.

We understand the importance of a correct installation in terms of both office safety and increased productivity. As such, we offer an extensive range of cable baskets, cable trays, under- and above- desktop power modules and other accessories.

We can also offer practical advice and guidance on an electrical configuration that is right for you now, and in the future.

If you have any questions please contact us on 0191 268 1010.

Appliance Power Usage

Personal Computer CPU	2 Amp
Monitor (Colour CRT type)	1.50 Amp
Laptop Computer	0.60 Amp
Mobile Phone Charger	0.05 Amp
Desk Lamp – 60W Tungsten	0.25 Amp
Desk Lamp – Low Voltage	0.10 Amp
Fax Machine	2 Amp
Desk Fan	0.25 Amp
Kettle	2 Amp

Desking Electrics - What You'll Need

1 Powerbar Socket Block

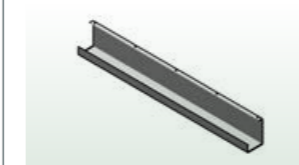

Used to supply power from the Power Modules.

See Page 45

2 Cable Tray/Basket

Used to safely house all under-desk cables and Powerbars.

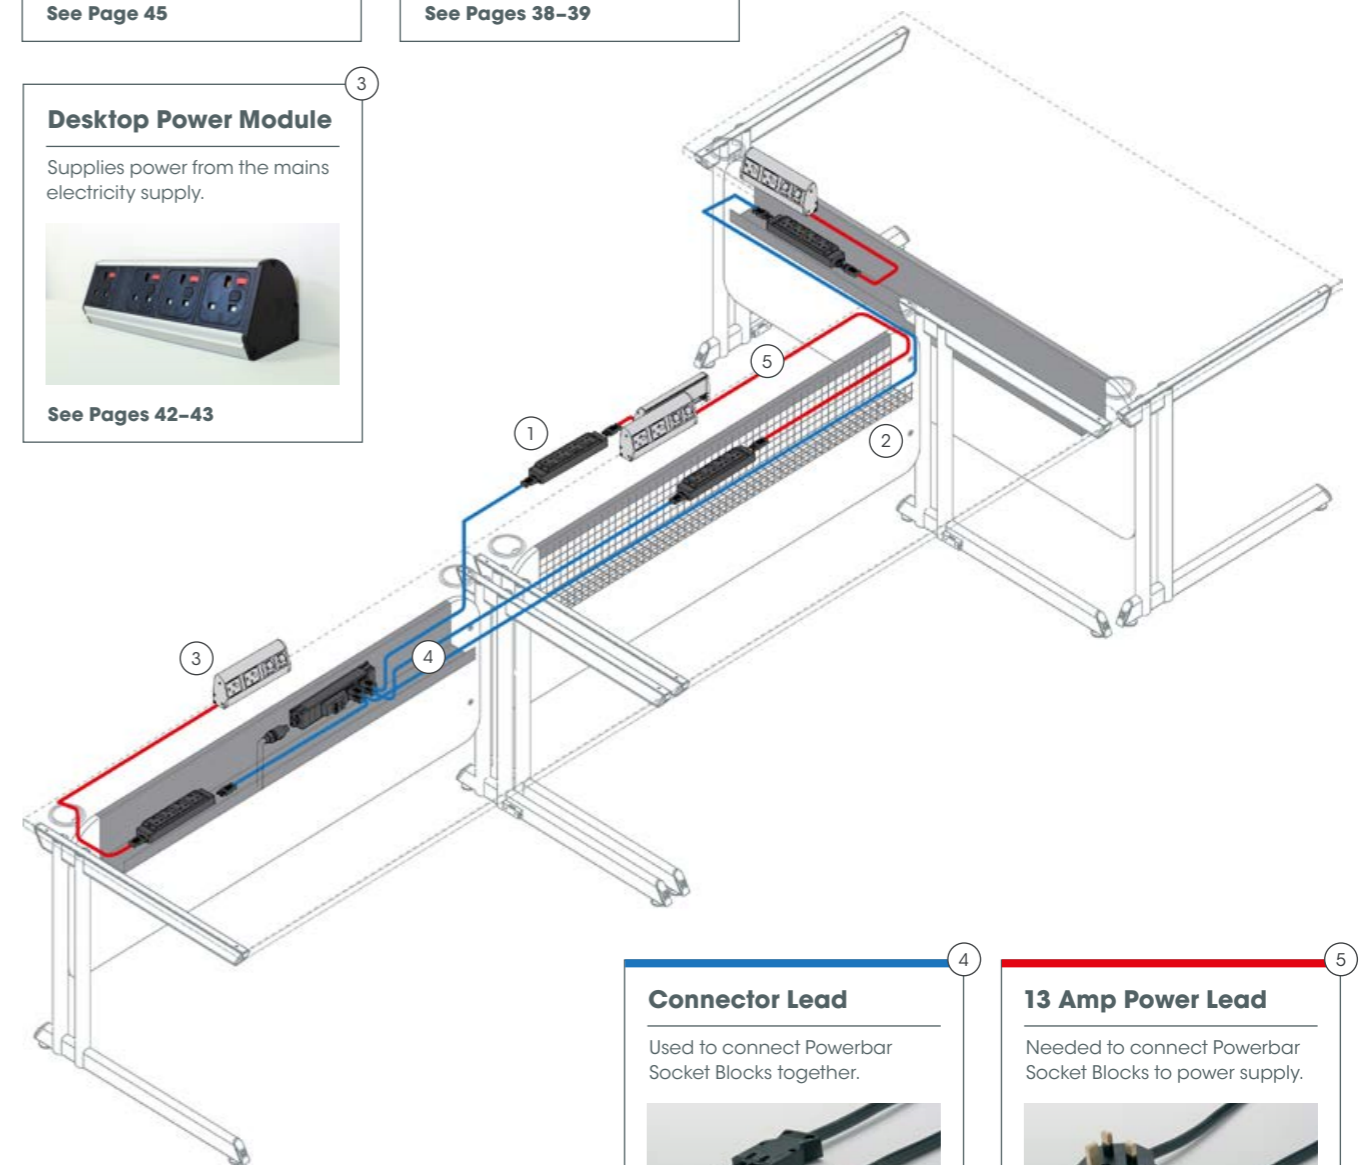

See Pages 38-39

3 Desktop Power Module

Supplies power from the mains electricity supply.

See Pages 42-43

4 Connector Lead

Used to connect Powerbar Socket Blocks together.

See Page 45

5 13 Amp Power Lead

Needed to connect Powerbar Socket Blocks to power supply.

See Page 45

Accessories

**Poco Desktop Power Module**

POCO25/1007	(Includes 2x UK Power Sockets)
POCO40/1138	(Includes 2x UK Power Sockets, and 2x RJ45 Ports)
POCO40/1843	(Includes 2x UK Power Sockets, and 1x Twin USB Fast Charger)
POCO50/1016	(Includes 4x UK Power Sockets)

All Poco Power Modules are supplied with a hardwired 0.8m power lead to male GST18/3 connector, and individually fused @ 3.15 Amps. All data ports are 3m Cat5e. Also includes standard clamp fixing. Other fixings available on request. **Please order Power Leads separately.**

**Pearl Desktop Power Module**

PEARL25/1001	(Includes 2x UK Power Sockets)
PEARL40/1042	(Includes 2x UK Power Sockets, and 2x RJ45 Ports)
PEARL40/1067	(Includes 2x UK Power Sockets, and 1x Twin USB Fast Charger)
PEARL50/1020	(Includes 4x UK Power Sockets)

All Pearl Power Modules are supplied with a hardwired 0.8m power lead to male GST18/3 connector, and individually fused @ 3.15 Amps. All data ports are 3m Cat5e. **Please order Power Leads separately.**

**Pod Desktop Power Module**

POD25/1103	(Includes 2x UK Power Sockets)
POD45/1071	(Includes 2x UK Power Sockets, and 2x RJ45 Ports)
POD45/2183	(Includes 2x UK Power Sockets, and 1x Twin USB Fast Charger)
POD45/1105	(Includes 4x UK Power Sockets)

All Pod Power Modules are supplied with a hardwired 0.8m power lead to male GST18/3 connector, and individually fused @ 3.15 Amps. All data ports are 3m Cat5e. Also includes standard clamp fixing. Other fixings available on request. **Please order Power Leads separately.**

**Polarice Desktop Power Module**

POLARICE20/1016	(Includes 2x UK Power Sockets)
POLARICE30/1007	(Includes 2x UK Power Sockets, and 2x RJ34 Ports)
POLARICE30/1401	(Includes 2x UK Power Sockets, and 1x Twin USB Fast Charger)
POLARICE40/1042	(Includes 4x UK Power Sockets)

All Polarice Power Modules are supplied with a hardwired 0.8m power lead to male GST18/3 connector, and individually fused @ 3.15 Amps. All data ports are 3m Cat5e. Also includes standard clamp fixing. Other fixings available on request. **Please order Power Leads separately.**

Accessories

**Pluto Desktop Power Module**

PLUTO/1009	(Includes 2x UK Power Sockets, and 1x Twin USB Fast Charger)
PLUTO/1007	(Includes 3x UK Power Sockets)
PLUTO/1023	(Includes 2x UK Power Sockets, and 2x RJ45 Ports)

All Pluto Power Modules are supplied with a hardwired 0.8m power lead to male GST18/3 connector, and individually fused @ 3.15 Amps. All data ports are 3m Cat5e. Side or base exit **must** be advised.

**Pixel Desktop Power Module**

PIXEL/1011	(Includes 1x UK Power Socket)
PIXEL/1015	(Includes 1x UK Power Socket, and 2x RJ45 Ports)
PIXEL/1027	(Includes 1x Twin USB Fast Charger)

All Pixel Power Modules are supplied with a hardwired 0.8m power lead to male GST18/3 connector, and individually fused @ 3.15 Amps. All data ports are 3m Cat5e.

**Phantom Desktop Power Module**

PHANTOM/200	(Includes 2x UK Power Sockets)
PHANTOM/22B	(Includes 2x UK Power Sockets, and 2x RJ45 Ports)

All Phantom Power Modules are supplied with a hardwired 0.8m power lead to male GST18/3 connector, and individually fused @ 3.15 Amps. All data ports are 3m Cat5e.

Please note: When ordering Pluto, Pixel and Phantom Desktop Power Modules, please check with the Design department to ensure suitability and fit.

Accessories

Prism Platinum Thru-Desk Power Module

PLATINUM45/1004/□ (Includes 2x UK Power Sockets, and 2x RJ45 Ports)

PLATINUM45/4142/□ (Includes 2x UK Power Sockets, and 1x Twin USB Fast Charger)
